

MEREDOSIA BUSINESS DISTRICT IS SWEEPED BY FIRE EARLY THIS MORNING

BLAZE DISCOVERED AT 1:30 IN HARMS' MEAT MARKET—
DESTROYS SIX BUSINESS HOUSES

Jacksonville and Springfield Departments Send Aid—Entire
Business Block on North Side of W. Main Street in Danger
of Destruction—Hunter and Allen Lumber Yard Consumed
at 3:40—Opera House Block Among Buildings Endangered.

At 4 o'clock this morning the citizens announced that they thought fire was under control and that the opera house block was saved.

Fire which originated this morning (Saturday) at 1:30 o'clock in the grocery store and meat market of H. E. Harms at Meredosia threatened to wipe out the entire north side of West Main street. The fire alarm soon spread over the town and a bucket brigade was formed, but the flames had gained such headway that little could be done to save the building. A telephone message summoned help from the Jacksonville fire department. Chief Wood informed Mayor Berger that he would send an engine and 1,000 feet of hose if the Meredosia authorities could furnish railroad means of getting the engine there.

Above the Harms grocery is the Woodmen hall and little was saved from the hall or the grocery. The other buildings along this street which are threatened are:

Edward Geiss' clothing store.
Berger millinery.
C. P. Hedrick, restaurant.
R. V. Field, drugstore.
Lumber yard of Hunter Allen & Co.

Opera house block, containing the stores of Berger Bros., Myers' grocery, Berger & Neville, general merchandise.

Communication was made with the fire department of Springfield. Chief Bowley stated that he could equip an engine and 1,150 feet of hose in half an hour. At 3:15 the engine and hose cart was loaded with orders to stop at Jacksonville and pick up an additional 1,000 feet of hose which Chief Woods had in readiness. Chief Woods when he learned that Springfield was to send an engine at once telephoned to the Meredosia authorities asking the need of Jacksonville fire department sending an engine. It was finally agreed that no engine should be sent from here. The authorities at Meredosia stated that quick work would have to be done on the part of the Wabash road in conveying the fire fighting apparatus to Meredosia if any of West Main street was to be saved.

The fire was seen for miles and around the farm telephones were soon pressed into service and people from all parts of the country hastened to lend what aid they could. An hour after the fire started there were many who came a great distance in automobiles from Bluffs, Naples and Winchester.

The town officials stated last night that they only had a hand engine and a few feet of hose, which was entirely inadequate to stop the flames. The work of the fire fighters was treacherous in the extreme. As soon as the citizens saw that the entire row of buildings was going an order was made to take as many things out of the buildings as possible and in this manner considerable property was saved.

Only an alley separates the lumber yard from the opera house block. A big force of men was put to work on top of the opera house block and water was being carried to the summit of the building in order that the sparks of fire would be ineffective. The intense heat from the burning pine made it almost impossible to act.

The fire soon spread to the Edward Geiss clothing store and from there jumped to the Berger millinery store. Here the fire fighters made a desperate effort to save the opera house block, which contained the Meyers grocery, Berger Bros., Berger & Neville, general merchandise.

The Harms building was two stories and built of wood. Most of the buildings burned were one story and located close together. The Farmers and Traders Bank is just west of the building where the fire started and was at no time threatened.

At 3:50 the firemen were still doing their best in halting the flames from catching the Opera house block and a late message stated that there was a possibility of having the building.

The fire department from Jacksonville will be accompanied by Chief Wood, Hoseman Earl Butcher and Commissioner Louis Engel.

ADDRESSES MAYORS.

Rockford, Ill., June 27.—Miss Julia Lathrop, head of the national child bureau, addressed the Illinois Mayors association convention here today. Prompt birth registration is necessary to safeguard interests of children according to Miss Lathrop. She asserted that of 300,000 born in the United States half would die in ninety days from conditions preventable by communities.

JOHNSON BOOKED TO SAIL FOR HAVRE SUNDAY

CANADIAN AUTHORITIES POWERLESS
TO PREVENT PUGILIST'S DEPARTURE

Immigration Officials at Montreal
Have Received No Official Communication in Regard to Johnson

MONTREAL, June 27.—Jack Johnson, the negro pugilist, accompanied by his white wife is booked to sail for Havre on the Allen Line Steamer Corinthia Sunday morning.

Canadian immigration officials located Johnson tonight with a view of taking summary deportation action should he fail to comply with the restrictions of the immigration laws.

The negro pugilist in response to a demand of the officials produced a through ticket to Havre purchased in Chicago, by this bit of strategy Johnson tied the hands of the Canadian immigration authorities. They are powerless to act further than to see that he leaves the country on the ship on which he is booked to sail.

To the immigration officials Johnson said that on June 23rd, he purchased two through tickets in Chicago for Havre in the name of John Arthur Johnson and wife; that he boarded a train for Toronto, Tuesday night, left it at Hamilton and boarded another train for Montreal. He said he was not questioned by immigration officials at the Canadian border and experienced no difficulty in crossing the line.

Johnson said he was fully advised of his rights and privileges before leaving Chicago. Having answered the officials' questions satisfactorily Johnson was allowed to depart, but it is understood that a further investigation will be made before he goes aboard the Corinthia. The immigration officials stated they were acting independently of the United States officials and at the immigration offices it was said no official communication with reference to Johnson had been received from Washington or Chicago.

Johnson said he was fully advised of his rights and privileges before leaving Chicago. Having answered the officials' questions satisfactorily Johnson was allowed to depart, but it is understood that a further investigation will be made before he goes aboard the Corinthia. The immigration officials stated they were acting independently of the United States officials and at the immigration offices it was said no official communication with reference to Johnson had been received from Washington or Chicago.

FUEL OIL EXPLODES ON STEAMER MOHAWK

FIVE ARE KILLED, SIX INJURED AND
MANY UNACCOUNTED FOR

Carelessness of a Machinist's Helper
Is Said to Be Responsible For the
Tragedy—Many Are Rescued
From the Water.

NEW YORK, June 27.—Two hundred tons of fuel oil on board the steel tank steamer Mohawk, owned by the Standard Oil company, exploded with a terrific roar and a burst of flame this afternoon while the vessel was at anchor off Tompkinsville, Staten Island, in New York bay, killing five persons and injuring six others. A dozen more are unaccounted for but are believed to have been rescued.

The dead:
Edward Donahue, 35, steam-fitter, Brooklyn.

John Donovan, 26, a machinist helper, Brooklyn.

Two unidentified sailors.

Fourth engineer of the Mohawk, name not learned.

Gustave Elmgren, 40, a pipe-fitter, was probably fatally burned.

Carelessness of a machinist's helper was reported to have caused the explosion, the allegation being that he carried into the hold a lighted candle which caused combustion among gases generated in the hold.

A score of men were rescued from the water. Others hung to rails or were dragged to safety on boats.

NEGOTIATIONS CALLED OFF.

Charleston, W. Va., June 28.—Negotiations looking to settlement of proposed strike in the New River coal field July 1st, where 15,000 miners are employed were called off tonight and the call for a general strike was issued and mailed throughout the field by the officials of the United Mine Workers of America.

Paris, June 27.—The referee in a 20-round fight tonight here between Frank Madole an American light-weight and Albert Badoud a Swiss was mobbed in the ring by the spectators when he declared the bout a draw. The crowd favored the American.

FORMER COUNCILMAN CONFESSES BRIBERY

Confession Comes as Result of Investigation of
In East St. Louis

IMPLICATES SIX OTHERS

Joseph A. Fansler's Confession
Implicates Other Councilmen
and Former Mayor

SAYS HE RECEIVED \$3000

ST. LOUIS, June 27.—An investigation into alleged municipal irregularities in East St. Louis, Ill., culminated today in the publication of a sworn confession of bribery made by Joseph A. Fansler, a former member of the East St. Louis city council.

The confession was made yesterday in the presence of Charles Webb, state's attorney of St. Clair county, Ill., and Curtis A. Betts, a reporter for the St. Louis Post-Dispatch and was sworn to before a notary public. The confession came within a few days of a statement by State's Attorney Webb that he would lay any evidence of municipal irregularities before the grand jury which will meet in September and that he was prepared to offer immunity to any guilty person who should aid the state in securing conviction.

The confession of Fansler details two alleged acts of bribery—the payment of \$3,000 for a franchise granting the East St. Louis Interurban railway company the right to lay tracks on certain streets of the city and the payment of \$3,000 for a franchise granting the Alton & Southern the right to cross certain streets.

Six members of the council shared in the division of the first \$3,000, according to the confession and four members in the division of the second \$3,000. Both bribes were paid in 1912, it is charged.

Charles S. Lambert, who then was mayor of East St. Louis, was named in the confession as the man who handed one of the council \$1,500 of the Alton & Southern bribe money, which was refused as insufficient. Lambert, it is said, went to John L. Flannigan, then counsel for the railway company and later corporation counsel of East St. Louis and got from the latter the full \$3,000 bribe money.

Lambert Leaves Town.

Lambert's home was closed today. Neighbors said he had left the city in an automobile early in the morning saying he would not return until Monday. All the others named as recipients of bribe money by Fansler vigorously denied the accusation.

The written confession of Fansler, it was stated today was preceded by an oral confession in the presence of Prosecutor Webb and the reporter Wednesday. At that time, it is stated, Fansler gave a detailed account of the boodle transactions. On Thursday, Prosecutor Webb called Fansler to his office and the written confession was taken.

Prosecutor Webb left his home in Belleville, Ill., today for a ten day vacation in Michigan. He said he would keep informed of developments while away and if necessary would return on short notice.

Fansler, who made the confession already is under indictment in another case. He is charged with obtaining money by fraud from an East St. Louis money lender. This case is set for trial in September.

Lambert, who succeeded as mayor this spring by John M. Chamberlin, who was elected on a reform platform, Lambert supported the Chamberlin ticket in the campaign.

Furnishes Confession.

The confession of Fansler in part follows:

"In the spring of 1912 councilmen J. W. Gavin, Edward F. Dowling, Claus E. Tietje, John C. Malinee, F. W. Leckel and myself agreed that before we would vote for an ordinance giving to the East St. Louis Interurban Railway, company the right to lay tracks on St. Louis avenue from Third street to the western city limits and on other streets, we would have to be paid. In accordance with this agreement were paid the sum of three thousand each of the six councilmen named receiving an envelope which contained five hundred dollars in twenty dollar bills. This money was given to us by John Beard Jr.

"I have been informed that Beard advanced this three thousand dollars and that it has not been repaid to him. This money was paid on June 23rd, 1912 in East St. Louis, Ill., the day the ordinance was passed and before it was passed.

"In October 1912, councilmen Gavin, Dowling, Tietje and myself were paid three thousand dollars to pass an ordinance giving the Alton & Southern railway company a franchise across certain streets in East St. Louis, Ill. This money was paid by giving each of us an envelope containing seven hundred and fifty dollars. The envelope containing my money was given to me by Gavin in the toilet room of Ed Dowling's saloon. I think he gave Dowling a similar envelope containing a like sum of money at Dowling's desk in

TERRIFIC HEAT WAVE CAUSES MANY DEATHS

FIVE DEATHS AND MANY PROSTRATIONS
REPORTED IN CHICAGO

Warmest Place in the Country is Said to Be Pierre, S. D. With a Maximum Temperature of 104—Mercury High in Missouri and Kansas.

CHICAGO, June 27.—Five deaths and a score of prostrations were attributed in Chicago today to the heat wave which shows no signs of soon diminishing. Several more deaths indirectly caused by the heat occurred and several people crazed by the heat, attempted suicide. At 4 p. m., the temperature was a fraction over 96, which, according to the weather bureau was almost as hot as it was along the Ohio river. The weather report said the warmest place in the country was Pierre, S. D., where the maximum temperature was 104. Great Bend, Kansas, followed closely, recording 102. The heat there and elsewhere in Kansas was so great that harvesting was suspended.

In Missouri the highest temperature recorded was 100 at Joplin, while both Kansas City and St. Louis showed a mark of 98.

Milwaukee, Wis., and Minneapolis, Minn., sweltered under 94 and St. Paul felt just as warm with 92. St. Louis reported two prostrations, Minneapolis seven, Milwaukee forty and St. Paul reported four serious strokes, one victim dying and one became insane.

Milwaukee had five deaths on its records with a probability of ten more.

At Detroit, Mich., a dozen persons were prostrated by the heat. The maximum temperature was 95.

Suffering in New York.

New York, June 27.—Although the maximum temperature in this city today was only 84 the heat was accompanied by excessive humidity and considerable suffering resulted. Seven cases of prostration were treated at hospitals. There were no fatalities.

PHARMACISTS HOLD ANNUAL ELECTION.

Quincy, Ill., June 27.—The thirty-fourth annual convention of the Illinois Pharmacy association came to a close today with the election of the following officers:

Ralph Dorland, Springfield, president; H. B. Anthony, Kewanee, first vice-president; A. G. Larson, Chicago, second vice-president; W. S. Denton, Beardstown, third vice-president; W. B. Day of Chicago, secretary, and Chris Carver of Bloomington, treasurer.

MORAN WINS BY KNOCKOUT.

New Orleans, June 27.—Frank Moran of Pittsburgh knocked out Tim Logan of Chicago in the fourth round of a scheduled 10-round fight here tonight.

The saloon. He had already paid Tietje at Tietje's grocery store.

"Gavin, acting for us, conducted negotiations with Charles S. Lambert and John L. Flannigan for the payment to us of this money. He reported to us from time to time the progress of the negotiations.

Wanted More Money.

"We wanted more than three thousand dollars but Gavin told us that Lambert and Flannigan said that was all that they could get. Flannigan met me one day in the Metropolitan building and asked me to vote for the ordinance. He told me I would be paid for doing so.

"The morning of the day the ordinance was passed, which was October 28th, 1912, Gavin went to St. Louis, Mo., and saw the mayor. Muerer's saloon on Washington avenue, five hundred dollars and told him he would get the other one thousand, five hundred dollars after the bill was passed. Gavin handed back the money and told Lambert that we had to have the full amount before we voted for the ordinance and that we did not get it that day.

"We went out of the saloon but soon came back with the full three thousand dollars which he handed to Gavin. Gavin said to us that Lambert got the money from Flannigan who was in St. Louis with him that day."

Councilman Deny Story.

Councilman J. W. Gavin is a yardmaster at the terminal yards in the stock yards on district of East St. Louis. When he was told of the confession of Fansler he entered an emphatic denial.

Claus Tietje, also named in the confession said:

"This is awful, when men tell untruths like this. What is a man who has a family or five children going to do? If the men mentioned in this statement got any money I don't know a thing about it. I am certain I didn't get any."

Edward Dowling branded the statement as false.

At the time of the passage of the Alton & Southern ordinance John L. Flannigan was attorney for the railway. Later he became corporation counsel of East St. Louis.

"I represented the company in hearings before council committees," he said to day, "and made arguments in support of our contention that we should have the ordinance.

"I know that I gave no money to any person, or to Lambert to give to any person. Even if it had been desired to handle the matter in that way, we could not have been able to get any money."

TO AID DISSOLUTION OF U.P.-S.P. MERGER

President Will Examine
Immediately Agreement Reached

TIME LIMIT JULY FIRST

Effort Is Being Made to Prevent
Combination Being Put
in Receiver's Hands

AN AGREED PLAN PROBABLE

WASHINGTON, June 27.—President Wilson late today brushed aside all plans for a week's trip to Cornish, N. H.—the summer capital—to examine immediately the tentative agreement reached between Attorney General McReynolds and the railroad attorneys for the dissolution of the Union Pacific and the Southern Pacific.

The tentative agreement was satisfactory to the judges of the United States court for the eighth circuit submitted by July 1, the United States supreme court has ordered the dissolution of the merger by government receivership.

A supreme effort is being made by the president and attorney general to prevent this drastic alternative by an agreement on a plan adequate to meet the demands of the Sherman anti-trust law and the mandate of the supreme court. Officials tonight predicted that the government and the railroad would present an agreed plan to the court within the time limit although it was stated that the government's approval in all probability would be qualified.

In submitting the plan to the court, it is proposed to ask the judges to give a limited time before entering a final decree within objections displayed the light of further study of the propositions may be filed by the government or any of the other parties interested. It is understood that the agreement will incorporate as one step in the dissolution, the previously proposed plan for the transfer of Southern Pacific stock held by the Union Pacific to the Pennsylvania railroad in exchange for the latter's holdings of Baltimore & Ohio.

Placed in Hands of Trust.

The remaining stock, it is said, will be placed in the hands of a trust to be sold within a definite period of time and in such manner to insure that no substantial proportion of the stock will be sold to the shareholders of the Union Pacific. Attorney General McReynolds objected to the trusteeship previously proposed by the railroad to the federal court at St. Paul on the ground that it was too vague and did not guarantee that the Union Pacific would surrender its ownership of Southern Pacific within a reasonable time. These objections have been overcome by a more definite outline for the disposition of the stock.

The exchange of stock between the Union Pacific and Pennsylvania will result according to estimates in giving the Union Pacific with its present holdings in the Baltimore & Ohio 38.2 per cent of the outstanding stock of that company and in giving the Pennsylvania 14 per cent of the stock of the Southern Pacific. So important was the situation regarded that the proposed plan of dissolution was considered at the cabinet meeting today.

DOCTOR LOSES HIS LIFE IN
VAIN EFFORT TO SAVE GIRLS

Four Persons Were Drowned as Result
of Boat Capsizing, Throwing
Three Girls in the Water.

Casaville, Wis., June 27.—Four persons were drowned four miles up the Mississippi from here this afternoon, when the boat in which three of them were riding capsized.

The dead are:
Miss Myrtle Judd, 22 years old.
Miss Nora Edwards, 18 years old.
Miss Helena Godenry, 18 years old.

Dr. R. A. Finney, 30 years.

They were all residents of Lancaster, Wis.

The girls were rowing in the river when the boat suddenly capsized. Dr. Kinney, who was sitting on the bank with his wife, swam to their assistance. The girls grasped him and he was unable to bear up under their weight. All four sank together while Mrs. Kenney watched them. She fell unconscious from the shock and it was not until she was revived that the others in the party learned of the accident.

HEAD-ON COLLISION.

Toledo, O., June 27.—One man was killed, one fatally and eighteen seriously injured to day when a west-bound Pennsylvania passenger train crashed head-on with a work train at Woodville, O. Most of those injured were Greek employees of the railroad. A sharp curve prevented the engineer of the passenger train seeing the work train in time to prevent the collision.

FISHERMEN DROWNED.

Keokuk, Ia., June 27.—James and John Chandler, fishermen, were drowned tonight in the Mississippi river above the government lock. The waves of a passing steamer swamped their launch.

PLACE COTTON SEWING THREAD ON FREE LIST

ACTION OF DEMOCRATIC CAUCUS
FOLLOWS SPIRITED DEBATE

Champions of Free Sewing Thread Argue That the Revenue to Be Derived From This Source, \$225,000 a Year, Was Inconsequential and Not Worthy of Debate.

WASHINGTON, June 27.—Wielding the axe again on the tariff revision bill for the benefit of the house-hold, the senate Democratic caucus tonight determined to put cotton sewing thread on the free list. This action followed a spirited debate and was carried by one vote over the protest of members of the finance committee who defended the fifteen per cent duty which was carried in the bill as it passed the house and which the senate majority on the finance committee did not alter. Those who championed this favor to the housewife argued that the revenue to be derived from sewing thread was inconsequential and that to be consistent in attempting to lower the cost of living the senate should not quibble. Looking up the estimates they found that the estimated revenue to be derived was about \$225,000 a year. This they figured was a small amount to worry about and on the free list cotton thread went, while committee members objected strenuously.

All the amendments to the cotton schedules suggested by the committee except one were adopted, including the increases on yarns. One amendment which provided a thirty per cent duty on cotton goods, which contain thread interwoven by means of lappels, swivel and other attachments to form figured or fancy effects, was stricken out, leaving such goods to carry the duty on the yarn content only.

Hopes to Finish Bill.

Senator Simmons, chairman of the committee said after the late adjournment that he hoped to have the bill through the caucus by Monday night. It will then go to the full finance committee and probably be reported Wednesday or Thursday.

The majority of the committee met late tonight and agreed upon an administrative amendment to the income tax section providing for eighty-six additional deputy collectors of internal revenue and other additional employees necessary to carry out the terms of the section. All employees are to be appointed by the commissioner of internal revenue with the approval of the secretary of the treasury for two year terms and without compliance to the terms of their civil service law. The estimated cost of collecting the income tax is fixed at \$1,200,000 a year.

Democrats Delayed.

Work in the senate delayed the Democrats of that body today in their party conference deliberations on the tariff bill.

When the caucus resumed its sessions tonight it took up again the fight over features of the agricultural products schedule.

A demand had been made that all articles be put upon a penalty basis so that the president could have a tariff weapon to use against countries discriminating against the United States.

House Leader Underwood talked briefly with senators this afternoon over the tariff situation. The Democratic leaders were not able to predict today, however, when the bill would be finished by the caucus and prepared for debate before the full senate.

BOY SCOUTS RELAY WILL
FINISH IN CHICAGO TODAY

Carry Message From President Wilson to Mayor Harrison Which Will Open Athletic Meet.

Chicago, June 27.—The arrival tomorrow of the last boy scout relay carrying a message from President Wilson to Mayor Harrison will open the international amateur athletic games which will continue for a week in the huge lake front stadium.

The last boy scout runner will trot into the stadium at 2:35 p. m., and about the same time will finish the leaders of a full distance marathon race that will be the opening event of the week's program. Gaston Strohino, third in the Stockholm marathon and Joseph E. Erlebane, Missouri A. C., winner of the all-western marathon in 1912 head the list of entrants which is one of the strongest fields ever entered in an American marathon.

The national interscholastic track and field championships will open the stadium events. High schools and academies from all over the country are entered. The international games will bring here amateur athletes from universities and clubs all over the United States and a number of European stars.

Reach South Bend.

South Bend, Ind., June 27.—The boy scouts carrying President Wilson's message to Mayor Harrison at Chicago, reached South Bend late today. The message was taken up by other runners and sent on its way.

GOVERNOR SIGNS
GOOD ROADS BILL

Tice Good Roads Measure Becomes a State Law With Signature

SHARE BUILDING COST

Cost of Hard Road Construction Will be Divided Between State and County

TO SPEND \$700,000 THIS YEAR

SPRINGFIELD, Ill., June 27.—The Tice good roads plan became a law late this afternoon when Governor Dunee placed his approval of the measure. As a result the construction of hard roads, with the cost divided equally between the state and county, becomes a possibility. The state will have \$700,000 to spend as its share of hard road construction in the next twelve months and a similar amount has been provided for the succeeding year.

Arrangements were made this afternoon by Attorneys Frank L. Shepard and Leo Hornstein, representing the city of Chicago, for a hearing tomorrow morning before Attorney General Lucey on the Chicago Park consolidation bill. The attorney general is of the opinion that the bill is unconstitutional and the city's legal lights will endeavor to change his mind on this point.

The attorney general also will hear arguments in favor of the municipal court act which he has held already is unconstitutional. Legislation included in the bills approved this afternoon follows:

Prohibiting railroads from charging one and one half cents a mile for children under 12 boarding trains without tickets.

Providing for forest reserve districts.

Restoring the fee system for oil inspectors outside Chicago.

Appropriating \$25,000 for a negro celebration of the fiftieth anniversary of the emancipation proclamation.

Requiring windshields on commercial automobiles.

Authorizing police pension funds in cities between eight and fifty thousand.

Prohibiting saloons within four miles of the University of Illinois.

Permitting cities to levy a three mill tax to construct and maintain public coliseums.

SPANISH WAR VETERANS CONTENT TO LIE IN THE SHADE

Springfield, Ill., June 27.—With the thermometer near the century mark, the United Spanish War veterans of Illinois in camp at Camp Lincoln were content to lie around in the shade to day. Drills were called off. The following officers were elected this afternoon:

Commander of the Department of Illinois—Carl McKee, Joliet.

Senior vice-commander—Carl L. Daniels, Wheaton.

Junior vice-commander—Michael Donahue, Streator.

Department inspector—L. J. Snyder, Bloomington.

Judge advocate—Robert E. Hickman, Benton.

Surgeon—Dr. E. C. Blankmeyer, Springfield.

Chaplain—Rev. Mr. Jameson, Chicago.

Marshall—J. L. Sweeney, East St. Louis.

The women's auxiliary elected the following officers:

President—Mrs. Emma Couch, Peoria.

Senior vice-president—Mrs. Marie Baumer, Chicago.

Junior vice-president—Miss Agnes Knudsen, Chicago.

Conductor—Mrs. Alice Stansch, Chicago.

Chaplain—Mrs. Hattie Peck, Chicago.

Guard—Mrs. Hattie Snyder, East St. Louis.

Judge advocate—Mrs. Corilla Kettleson, Rock Island.

Inspector—Mrs. Violet King, Rockford.

Instructor and installing officer—Mrs. Anna Reaney, Chicago.

Historian—Catherine Cutler, Chicago.

Patriotic instructor—Mrs. Lowell Chicago.

WEATHER INDICATIONS
AND TEMPERATURES

Washington, June 27.—For Illinois: Continued warm and probably fair weather Saturday and Sunday, light south winds.

Temperatures.

Chicago,

SCHRAM

JEWELER

When Horace Maynard entered Amherst College he put a large V over the door of his room. It was ridiculed as an eccentricity or absurdity, but when he became valedictorian of his class the meaning of the letter flashed upon them with surprise.

Maynard had his ideals and we have ours—the best or nothing—and we keep this constantly before us.

Would you choose an ordinary store when a better one is possible?

PASSED SEVENTY SIXTH MILE STONE OF LIFE

SAMUEL W. BLACK GUEST OF
HONOR AT BIRTHDAY DINNER
FRIDAY.

Was Born in Morgan County and
Has Spent His Entire Life Here—
Beginning in Humble Way By In-
dustry and Good Judgment He Has
Acquired Large Holdings—Black
Family Pioneer Residents of the
County.

Seventy-six years a resident of one county, and that Morgan county is the good record of Samuel W. Black. Friday was the 76th anniversary of Mr. Black's birth and in honor of the important event there was a gathering of the sons and daughters and other immediate relatives at the home of Mr. and Mrs. Charles S. Black three miles north of Jacksonville. For a long period until 22 years ago this very farm was S. W. Black's home and when he left it he came to Jacksonville and since has been a valued resident of this city.

Holds Family Dinner.
The immediate members of the family in accordance with the invitation of Mr. and Mrs. Charles Black gathered at the home sometime before the noon hour and passed the time delightfully in talking over other days. At 12:30 dinner was announced and it was such a one as could be expected in this home where the arrangements for guests are always most generous and bountiful. Nothing was forgotten in that bill of fare and one might have thought from the generous supply that double the number of guests were expected. The company included in addition to Mr. and Mrs. S. W. Black, the four sisters of Mr. Black, Mrs. Sarah Sharp, Mrs. Mary J. Self, Mrs. S. T. Maddox, and Miss Martha Black. John Black, the only brother of the guest of honor was prevented from attendance by the serious illness of his wife. Others in the company were S. T. Maddox, Mr. and Mrs. Ed Black and son Lloyd of White Hall, Mrs. Robert Hopper and son Eugene of Sinclair, Dr. and Mrs. George E. Baxter and son Edward, Mrs. Susan Angel, Mrs. M. E. Culley, Mr. and Mrs. A. W. Waltman, Mr. and Mrs. T. H. Cully, Miss Irene Black, the host and hostess, their daughter Miss Mary and their sons Clyde and Paul. The hours after dinner were spent socially, some good music being a part of the program and at an opportune time F. E. McDougall took a group picture of the members of the family. This picture will no doubt be given a place on the wall of the Charles Black home along side of one which hangs there now.

It was taken 17 years ago on a similar occasion and shows S. W. Black with his brother John and their four sisters. While the period which seventeen years represents has made some changes in their appearance, the picture of the former birthday celebration is still a good accurate likeness of the group.

Born in Morgan County.
As stated in the beginning Samuel W. Black is entirely a Morgan County product, as he was born on a farm in the Shiloh neighborhood 76 years ago and has devoted all of his life until his retirement in 1899 to the important business of farming. That he has been successful is well indicated by the fact that to day he owns more than 800 acres of Morgan county land besides owning a farm in an adjoining county and considerable real estate in Jacksonville.

HERE FROM LITTLE ROCK.
Miss Edith Epler, the daughter of Dr. Ernest Epler of Little Rock, Ark., is visiting her grandmother, Mrs. Cyrus Epler, of West State street. She is a late graduate of Wellesley in Massachusetts. She will be in the city but a short time and would be pleased to meet as many of her friends here as possible.

REPUBLICAN IN POLITICS.
Mr. Black has been a subscriber of the Journal for over 50 years as was his father before him and when asked about his political life by a Journal reporter yesterday Mr. Black said that he had always been a Republican since the day that he was entitled to vote and that he had never changed from that faith. He said laughingly that he had helped to elect all the presidents since he attained his majority except Cleveland and the present head of the American government. Although he has always taken a great interest in political affairs Mr. Black was never a candidate for any office. He was however deeply interested in school affairs and served for a long period with great acceptance as a school director.

Mr. Black was married in December 2, 1860 to Miss Mary J. Self who died in 1888 leaving three children—Edward, Charles and Mrs. Effie E. Baxter. In 1880 Mr. Black was married to Miss Addie Angel and they have one daughter Miss Irene.

Black Family Pioneers.
The Black family history is closely interwoven with the history of

Morgan county, for as before mentioned, Samuel Black the father of S. W. Black was one of the most of the pioneer farmers of the county. He was born in Augusta county, Virginia, July 4, 1738 and his father before him whose name was Samuel also was descended from Scotch ancestry. The place of his birth is not on record but the history of the family shows that he was a patriotic strain and fought for his country as a soldier in the war of the Revolution, probably serving with troops from Virginia. He removed from Virginia to Christian county, Kentucky, when his son Samuel was 12 years of age. The latter the father of S. W. Black remained in Kentucky until he reached his majority. Subsequently he was married to Miss Mildred Gains, daughter of a pioneer Methodist minister and in 1825 came with his family and two children and settled on a farm in Sangamon county. Touching on this point is a record written on the fly leaf of S. W. Black's old testament which reads like this: "Father moved to Sangamon county in 1825 and entered a farm a mile and a half north of Pleasant Plains. He lived there for three years and then came to this county and settled on the farm on which he now lives. This record being written on the 11th day of March 1872. He was born in old Virginia and his father moved to Kentucky, with the family when he was about twelve years old. Prior to that time the family lived in Virginia."

Long Members of Methodist Church.
It is recorded of the elder Black that he devoted his time to farming and stock raising there on the home place near Shiloh until old age came to him and then he spent his time with his children until his death which occurred in August, 1887. He was at that time ninety years of age. The name of Samuel Black is indissolubly linked with the record of Methodism in Morgan county. For 69 years he was a member of the Methodist church and it was at his home in the Shiloh neighborhood that the first Methodist preaching service of that locality was held. He was one of the founders of Shiloh church which was organized by the pioneer residents of that locality who first gathered at his home for worship. He also actively assisted in the organization of a number of Sunday schools in other localities. Because of his church relationship and from the fact that his father's farm in Sangamon county was located not far from the old Cartwright farm he was on terms of close friendship with Rev. Peter Cartwright and other old time heroes of the Methodist church of sainted memory. Rev. Peter Cartwright was for nearly half a century a presiding elder of the Methodist church and for a long time Shiloh was in his district. It so happened that Dr. Cartwright was often entertained at the Black home.

Mr. Black was a Whig and a Republican and was one of the pioneers of the county who could boast the friendship of Abraham Lincoln. Throughout all his long life he was always ready to help in any movement which seemed to be for the betterment of his own community or for a larger circle and so his years were years of usefulness and of genuine good citizenship.

With such an ancestral history it is no wonder that Samuel W. Black and the other members of the same family have ever been ranked among the most valued residents of Morgan county. Although Samuel W. Black is 76 years of age and has passed beyond the limit which is the common lot of man to one who meets him he gives no evidence of living on borrowed time and he is as young in body, mind and spirit as many a man 20 years younger. He may be growing old but if so has learned the secret of growing old gracefully and gives evidence that he is likely to be spared for many more years of usefulness to bless his family and his friends.

Washable neck wear that are fast colors and really laundable can be found at FRANK BYRNS' Hat Store.

BUILDING NEW TELEPHONE LINE

A construction gang for the Central Union telephone company arrived in the city and commenced work on a new line to St. Louis. This line is being constructed to relieve congestion on the present toll lines.

ARRANGING TO MOVE OFFICE

Judge M. T. Layman and Attorney William E. Thompson, who now have offices in the Scott block, are making preparations to move to the offices vacated by Bellatti, Barnes and Bellatti in the Duncan building on West State street. The change will be made July 1.

SERIOUS ERROR IN JACKSONVILLE

Jacksonville Citizens Will Do Well to Profit By the Following.

Many fatal cases of kidney disease have reached an incurable stage because the patient did not understand the symptoms. Even today in Jacksonville there are many residents making the same serious error. They attribute their mysterious aches and pains to overwork, or worry, perhaps, when all the time their rheumatic pains, backache and bladder irregularities are most probably due to weak and ailing kidneys. If you are ill, if your kidneys are out of order, profit by this Jacksonville resident's experience.

Miss Mary Flynn, 820 Beesley avenue, Jacksonville, Ill., says: "Doan's Kidney Pills are a splendid remedy and act just as represented. I had sharp pains in the small of my back and also had backache which showed that my kidneys were unnatural. Since I used Doan's Kidney Pills, I have had none of these troubles."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's and take no other.

Woman's Danger Signals

Hot flashes—dizziness, fainting spells, headache, bearing-down feeling and ills of a kindred nature—are nature's danger signals. The female disturbance or irregularity back of these calls for help, should have immediate care and attention. Otherwise the delicate female constitution soon breaks down.

Dr. Pierce's Favorite Prescription

for more than 40 years has been lending its health restoring aid to thousands of women year after year throughout its long life.

This wonderfully successful remedy imparts strength to the entire system—particularly to the organs distinctly feminine. Nerves are refreshed. The "stale", overworked business woman, the run-down housewife, and the weary care-worn mother of a family—all will gain strength from this famous prescription which 40 years has demonstrated its effectiveness—in liquid or tablet form.

MASONS HOLD BANQUET IN HALL AT WOODSON

Program is Given in Connection With the Feast—Nucleus Made For the Formation of An "Eastern Star."

Members of Murrayville Masonic lodge No. 432, together with their wives met in their hall at Woodson Friday night. As is well known the Woodson membership is included in the Murrayville lodge. A splendid banquet was served, with over 150 plates. The menu was excellent, under the supervision of the Ladies Aid society of the Christian church and the serving was by girls, whose fathers belong to the organization. The invocation was given by Rev. Mr. Coleman and during the evening Miss Sue Fox of this city gave two delightful readings and the Gallagher quartet composed of Misses Ruth, Ione, Gallagher, Mrs. May McCutley, and Mrs. J. T. Self gave several selections. The principal address of the evening was by Rev. H. S. Alkire who took for his subject "A Mason—Why?"

One of the objects of the meeting was to further plans for the organization of an Eastern Star and good progress was made along this line. The following are those who will form the nucleus of the chapter, which will be perfected at a later date: Mrs. Edward Gallagher, Miss Eva Dexter, Mrs. Nannie Sooy, Mrs. Edna Devora, Mrs. Jennie Clark, Mrs. Mosselle Irlam, Mrs. Hattie Cade, Mrs. Lillian Baxter, Mrs. Louise Henry, Mrs. Emma Self and Mrs. Edna Sorrells.

Nothing carried from last year in Obermeyer's stock.

SOCIAL EVENTS.

Mrs. J. W. Moon of Kentucky street who leaves today for an extended visit with her son, H. F. Duncan of Detroit, was treated to a pleasant farewell surprise party Friday by the members of the choir of Brooklyn church. The guests came twelve strong from choir practice at 9 o'clock, bringing a supply of refreshments. They spent the evening in social conversation and left with the best of wishes for the pleasantness of Mrs. Moon's visit and the improvement of her health which has been failing for some time.

The members of the official board of Grace M. E. church, together with their wives were guests last evening of Rev. Mr. and Mrs. J. W. Miller at their home on West State street. The evening was spent in an informal way. Miss Catherine Rogerson gave three vocal numbers with Miss Marie Miller as accompanist and Donald Swarthout favored the company with three piano selections. Delightful refreshments were served and during the evening a frappe bowl was at the disposal of the guests present. In every way the gathering was delightful.

Ripley Spring Water. Ethie's.**4TH OF JULY CELEBRATION AT NICHOLS PARK**

Good Time Has Been Arranged With Music, Dancing and Fire Works.
The Nichols park commissioners in connection with a number of the merchants of Jacksonville have arranged for a good old time celebration of the 4th at Nichols park. A band will be on hand to furnish music throughout the day. There will be a free dance at night in the pavilion. Those arranging the celebration have not forgotten the most distinctive feature of the 4th and have prepared an excellent program of fireworks. These arrangements have been made for the benefit of the citizens of Jacksonville and it has been decided to have everything free, and it is hoped that a large number will avail themselves of the promised good time on this national holiday.

Big fireworks display. Obermeyer's.

BAD PLACE IN ROAD.
Travelers of the Pisgah road near the residence of Mr. Childers who lives on the Master's farm, report a very bad washout, which is five feet wide and six feet deep. The place is very dangerous for automobilists especially after night as there is no light or warning to afford protection.

Get ready for the 4th at Obermeyer's.

SERMON ON GETTYSBURG.
Members of Matt Starr Post G. A. R. are hereby requested to assemble at 10:30 o'clock Sunday morning at Westminster church to hear a sermon to be delivered at 10:45 o'clock by Rev. L. H. Davis on "Gettysburg, Its Cause and Effect."

W. H. Jordan, Commander.
J. W. Waller, adjutant.

WILL HOLD SALE TODAY.

F. T. West, now a cigar manufacturer of Waterloo, Minn., and a former resident of this city is here to sell the household goods he has had in storage for the past year. The complete furnishings for a five room house will be sold at auction at 2 o'clock this afternoon at the Billy Sunday lot on East Court street. Capt. Wright will be auctioneer. Be sure to attend and get some choice furnishings at your own price.

New fireworks. Obermeyer's.

CHANGE OF SERVICE.
The preaching service Sunday morning at the Christian church at Litterberry which usually takes place at 11 will be held Sunday at 10:30 on account of the funeral of Mrs. Samuel Fitzpatrick. The pulpit will be filled by Dr. Royal J. Dye of Bolenge, Africa.

I. O. O. F. CLOSE EXERCISES.

School of Instruction Conducted by Messrs. Blood and Darnell.

The I. O. O. F. activities in connection with the dedication of the new temple of Illini lodge came to a close Friday. A school of instruction in the work of the order was conducted in the afternoon and again at night by H. M. Blood of Chicago, chief instructor and by Deputy Grand Master Darnell of McLean. Delegations were present last night from Winchester, Arcadia, Bluffs, Murrayville, Springfield and Concord. A buffet luncheon was served at 10:30 o'clock and the work of instruction was continued until midnight. Mr. Blood and Mr. Darnell left the city on the 1:58 Alton train. The three days exercises have been of exceptional interest and of a kind highly creditable to Illini lodge and to the several committees of arrangements.

Fireworks, the "sure go" kind. Obermeyer's.

REPORTER IS ON A BREAK JOURNEY

Wilder H. Walters of Lake Charles, La., a reporter on the Daily Times of that city is a visitor in Jacksonville. As a punishment for saying any fool could walk, he is making a very unique trip from his home town to New York via Chicago. He is to pay his own traveling expenses, put up at good hotels, refrain from walking place to place and finish the journey by 2:30 p. m. Dec. 1. He left St. Charles May 26. The trip was occasioned because so many make pilgrimages on foot and beg from place to place. If Walters makes the trip per agreement he is to be given double pay for one year from the manager of the paper. He will go from here to Quincy and then to Peoria, where he was born and reared, then on to Chicago. He writes cards for spending money.

THOMAS MANDEVILLE DIES AT OUR SAVIOR'S HOSPITAL

Well Known Resident Answers Final Summons—Came to Morgan County in 1856.

The venerable Thomas Mandeville of 322 North East street, died Friday evening at 8:30 o'clock at Our Savior's hospital, at the age of 86 years. He had not been in good health for sometime and his condition became so grave Monday that his family deemed it best to remove him to the hospital.

He was born in Tipperary, Ireland in 1827, and on coming to America, first settled in New Jersey. In 1856 he came to Illinois and stopped in Morgan county. He followed the occupation of a farmer, southwest of the city, until 14 years ago when he moved his family to Jacksonville. He was a man of upright life and character and as has often been said about him, "His word was as good as his bond." He took a great interest in the affairs of his community and the country at large and was well posted on the topics of the day. His long life gave him an opportunity to see the wonderful advancement which the country has made in the past seventy-five years and the many changes were often the subject of much comment by Mr. Mandeville. His life has been one of devotion to his family and a spirit of helpfulness toward his fellowmen. He was a devout member of the church of Our Savior.

His wife died July 8, 1905 and he is survived by the following children: Luke of Oneal, Neb.; Mrs. Margaret Cosgriff, Galva, Iowa; Mrs. Lawrence Flynn, Thomas and Mary Mandeville of Jacksonville, Sister Mary Philemon of New York city and Sister Mary Macori, of Lancaster, Pa. Two children preceded him in death, John and Julia. He also leaves thirty-seven grandchildren and five great-grandchildren. Funeral arrangements will be announced later.

CITY AND COUNTY

C. C. Sheppard was a business visitor in Bluffs yesterday.

Mrs. Matilda Elkins of Springfield is the guest of Miss Julia Gibbons.

Prince Oates of Riggsport was transacting business in the city yesterday.

Mrs. W. H. Crum and daughter Vida of Litterberry were among the visitors in the city yesterday.

Mrs. J. W. Moon and Miss Louise Mansfield expect to leave tomorrow for Detroit, Mich., where they will visit with relatives and friends.

Mrs. Emma Panhorst of Champlain is here for an extended visit at the home of her mother, Mrs. Frances Braun on Caldwell street.

R. P. Dillon and F. W. Stewart of the Empire Tire Co., of Indiana, were autoists in the city Friday. They are on their way to the Pacific coast.

Mrs. Edward Chamberlain and daughters Erma and Trenna of Dow City, Iowa, are guests at the home of Mr. and Mrs. George F. LaRue in South Jacksonville.

Mr. and Mrs. H. L. Caldwell who were recently married in Vermillion North Dakota have arrived in Jacksonville. For the summer months they will occupy the Vaughn home on Grove street.

Mrs. Obed Reeve of Geneva, was expected in the city last night for a visit at the home of her mother, Mrs. Thomas Mason and with other relatives. She is accompanied by her two daughters, Chester and Helen.

Miss Dorothy Ferry, bookkeeper at O'Donnell's garage on East State street, will leave Saturday evening for Springfield, where she will visit with relatives and friends. She will take a vacation of one month. Her place at the garage will be filled by Miss Edith Sibert.

Among the delegates to the convention of workers for the blind was Frank M. Dicks of Union who was at one time connected with the Illinois School for the Deaf under Dr. J. C. Gordon.

C. Y. Rowe has returned from Decatur where a meeting of the east central Illinois district of the Clover Leaf Casualty company was held. This district included five counties with A. M. Jackson as manager.

You can keep cool if you will buy thin weight underwear at Knoles.

Mrs. Della McBride of Chicago is here for a visit at the home of her parents, Mr. and Mrs. J. C. McBride. Her husband has gone to Dallas, Texas on legal business and will return to Jacksonville about July 4th.

KANSAS CITY DEFEATED.

Oswentsla Club, Lake Forest, Ill., June 27.—The St. Louis Country club defeated the Kansas City club 8½ to 7½ for the consolation cup of the mid-western golf handicap. St. Louis handicap of one giving it the winning goal. Kansas City as in its game with Cincinnati Tuesday came up from behind in the last period but was unable to overcome the leads that St. Louis obtained in the earlier periods.

YOUR HAT

Be a Stylish One, But It Makes Trouble.

A man usually buys a hat that's "in the style," but the modern hat for men has a lot to answer for.

Headbands are growing more numerous every day. Hats make excellent "dust" places for the parasitic germs that keep the life from the roots of the hair.

Your hair begins to fall out and scalp is full of dandruff it is a sign that these countless germs are at work.

There is but one way to overcome the trouble and kill the germs—that way is apply Newbro's Herpicide to the scalp. It will kill the germs and healthy hair is sure to result.

Sold by leading druggists. Send 50c in stamps for sample to The Herpicide Co., 1017 Mich.

BLIND WORKERS CLOSE SUCCESSFUL MEETING

CALIFORNIA CHOSEN AS 1915 MEETING PLACE.

Superintendent Woolston of Jacksonville Elected First Vice-president—Other Offices Chosen and Resolutions Adopted.

The twelfth convention of the American Association of Workers for the Blind was formally adjourned at 12:30 Friday to meet again in San Francisco in 1915. Although the close of the business session at this hour was the real end of the assembly, many of the delegates who yet remained spent the time Friday afternoon with round table discussions on subjects previously passed over through lack of time. Besides fixing on the place of meeting the business session was occupied also with biennial election of officers. Resolutions previously drawn up by a committee appointed for the purpose of expressing in condensed form the policy of the association in regard to the education of the blind for the next two years were passed. The resolutions also re-affirmed confidence in the work of the Uniform Type Committee and expressed a desire that its work be completed by the next convention. They provided for the extending of an invitation to the American Association of Instructors for the Blind to meet hereafter with the A. A. W. B. This business session was preceded by round tables in which were discussed the employment in which the blind may be allowed to work with the seeing and suggestions for inaugurating work for the adult blind.

The Morning Session.

The first question discussed at the morning session which met at 9:30 was "In what pursuits can the blind be employed with the seeing." The matter presented was in the form of a committee report prepared by Edward G. Pease, Charles F. F. Campbell and Edward J. Nolan and read by Mr. Campbell. The committee urged all workers for the blind to endeavor possible to find position where blind men under normal conditions, with seeing men as fellow workers. They prefer this method over employing blind men in factories in which only sightless men work. "Suggestions for inaugurating work for the adult blind" was the next topic discussed. Mr. Campbell was the chairman of the committee which prepared the report and Mrs. E. B. Palmer was the reader of the paper.

Officers Elected.

The officers elected at the business session were:

President—Eben P. Morford, Brooklyn, N. Y., re-elected.

First Vice-president—Robert W. Woolston, Jacksonville, Ill.

Second Vice-president—Dr. Newell Perry, Calif.

Treasurer—William C. Sherlock, Baltimore, Md., re-elected.

Secretary—Charles F. F. Campbell, Columbus, O., re-elected.

Convention registrar—Mrs. Mary Drange Campbell, Columbus, O., re-elected.

In the afternoon three round table discussions were held, two at 2:30 and the third at 4 o'clock. A round table on music for the blind was in charge of Supt. William P. Shannon of Indianapolis. Another discussion at 2 o'clock was on "Some of the problems of workshops and industrial homes." Millard W. Baldwin of Maine was the leader and C. F. F. Campbell one of the chief speakers. This question was considered under three heads, (a) wages, bonus system etc.; (b) boarding of the workers; (c) methods of promoting contentment among the workers. Mr. Campbell's findings were based upon work done in Cleveland, O. The discussion on homes for the blind at 4 o'clock was led by Miss Adelia M. Hoyt, of the Iowa Association for the Blind.

The Resolutions.

The resolutions adopted by the convention just before its formal adjournment at 12:30 with the exception of those endorsing the report of the Uniform Type committee which appeared in Friday's Journal are:

Resolved: By the A. A. W. B. in convention assembly that a committee be appointed to report at the 1915 meeting an outline of the range of activities which should be undertaken by a model association for the blind.

That the president of this association appoint a committee of three to consider and report at the next convention upon the question of the establishment of a national bureau for the blind.

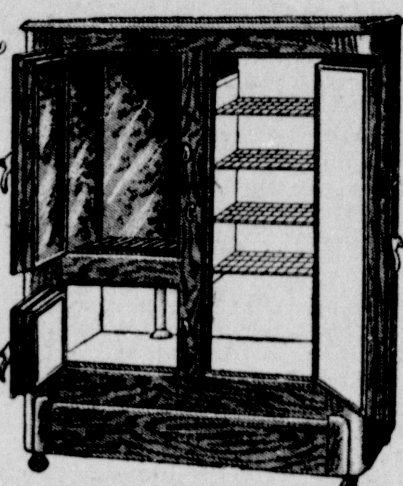

Resolved: That this association hereby again record its keen appreciation of the unselfish, untiring, intelligent and efficient services of its Uniform Type committee and expresses the hope that its members may be spared to reap the reward of their labors.

Whereas there is apparently a growing sentiment in favor of some arrangement by which the meetings of the A. A. I. B. and the A. A. W. B. shall be held at the same place and at approximately the same date.

Resolved, That this association invite the A. A. I. B. to appoint a committee to confer with a committee of three members of this association to be appointed by the president thereof for the formulation of some plan for the accomplishment of this purpose which will be acceptable to both.

Gratefully acknowledging the cordious and cordial invitations of New York, Maine, Arkansas and Colorado. Resolved, That this organization requests its executive committee to arrange if possible to accept the invitation of California to meet in or near the Exposition City in 1915.

That we heartily commend the efforts which have been put forth relative to securing state appropriations to provide readers for blind persons desiring to take courses of study in advance of those furnished by institutions for the blind, and be it further resolved that the members of this association pledge themselves to call attention to and work for such legislation in their respective states at the earliest possible date, and that a committee of three shall be appointed by the chairman to compile a digest of the laws so enacted and make a comprehensive recommendation embodying ideas of workers and educators and that the report of committee shall be given circulation through the Outlook for the Blind.

tutions for the blind, and be it further resolved that the members of this association pledge themselves to call attention to and work for such legislation in their respective states at the earliest possible date, and that a committee of three shall be appointed by the chairman to compile a digest of the laws so enacted and make a comprehensive recommendation embodying ideas of workers and educators and that the report of committee shall be given circulation through the Outlook for the Blind.

That this association heartily commends the policy pursued by many of the schools for the blind in employing thoroughly trained and competent blind men and women of good character as teachers and managers that such salaries be paid as will enable them to save from their earnings sufficient to provide for themselves after retirement from active work.

That this association desires to express its grateful appreciation of the hospitality extended by the Board of Administration of the State of Illinois and of the untiring efforts for the comfort and entertainment of its members by Superintendent Robert W. Woolston, the associate teachers and officers and the entire staff of the school.

That this association desires to acknowledge its gratification to the press of the City of Jacksonville for its complete and accurate reports of the proceedings of the convention.

Edward J. Nolan, chairman.
W. I. Scandlin.
O. H. Burritt.

ENTERTAINED S. S. CLASS.

Mrs. T. H. Buckthorpe entertained the members of her Sunday school class of Centenary M. E. church at a picnic, Friday evening at Nichols park. Supper was served at 6 o'clock and the outing proved delightful in every way. This is an annual event of the class and is always looked forward to by the scholars with no little interest. Those present aside from the teacher were Misses Catherine Rapp, Gladys Sargent, Hazel Brown, Mildred Patten, Dorothy Smith, Marcellene Cowger, Jean McFall, Hazel Busby, Ruth Platt and Hilda Fanning. The guests of the class present were Misses Esther Claus, Helen Carlson, Florence Cox and Faye Alkire.

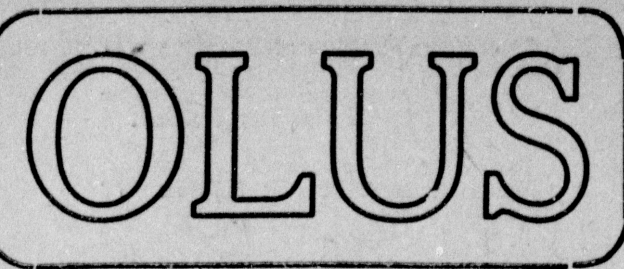

All new fireworks. Obermeyer.

SULLENS GETS AN ADDITIONAL SENTENCE.

Salem, Ill., June 27.—Frank Sullens, 18 years old, under a twenty-five year penitentiary sentence for the abduction of Dorothy Holt, 15 years old, received an additional sentence of thirty years today when he pleaded guilty to the charge of assault. Sullens confessed that for a \$5 fee he kidnapped the girl and carried her to a mine where he turned her over to a male companion.

INDETERMINATE SENTENCE.

Chicago, June 27.—Edwin F. Young, former treasurer of the Chicago, Terre Haute & Southeastern Railroad company, pleaded guilty today to the embezzlement of \$53,000 of the company's funds and was sentenced to an indeterminate term of from one to ten years in prison.

AUTO ENGINE'S DEATH WINS PRETTY WIFE

Bit of Romance in Early Courtship in Jacksonville of Woman's College Girl Culminates in Marriage.

A pretty bit of romance in the courtship of Miss Helene Glenn of Oneida and Mr. W. A. Fraser Jr., of Chicago has come to light since their marriage recently in Oneida, which was attended by Miss Irene Cox of this city. It all happened because of the spark plug. The bride has a number of friends in Jacksonville which she made while attending the Woman's college. The Inter-Ocean says:

W. A. Fraser, Jr., vice president of the W. A. Fraser company, board of trade members, started out two years ago on a brief motor tour through Illinois. Just as his machine was speeding into Jacksonville, Ill., the engine went dead. The Illinois Woman's College is located close to the spot where the motor car balked, and thereby hangs a love tale. For out of the dormitory at that moment walked Miss Helene Glenn, daughter of William T. Glenn, grain dealer and mayor of Oneida, Ill.

Miss Glenn strolled past the stalled car and glanced at its driver. "Well, I declare," she cried, "isn't this Mr. Fraser?" He was a friend of her childhood.

When Miss Glenn, who was about to graduate from the music school of the college, returned to her home in Oneida, she carried with her an air of mystery and a diamond ring.

The wedding was performed yesterday at noon in the home of the bride. The bridal couple motored to Chicago. They took a boat for Mackinack Island, Lake Huron, where they will spend their honeymoon. Upon their return to Chicago in September they will take up their residence in the Woodlawn district.

FIVE GIVEN RANK.

Jacksonville lodge No. 152 K. of P., conferred the rank of Knight upon five candidates last night, Fred C. Dodsworth, Adam Ehrigott, Nellis H. Crain, L. C. Potter and W. F. Jackson. Refreshments followed the work.

EXPERIENCE OF MOTHERHOOD

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes once childless there are now children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Happiest Girl in Lincoln

"I am only too glad to testify to the good qualities of Chamberlain's Tablets," writes Miss Nora G. Hagerty, of Lincoln, Neb. "I had been ailing for some time with chronic constipation, stomach trouble and a terrible misery after eating, when I was taken sick with distress of the bowels. We had some of the best doctors in Lincoln in attendance, and they all said I would have to be operated on right away. I had heard of Chamberlain's Tablets, and we got a bottle of them. I began to take them and in three days I was able to be up and get better right away. I am the proudest girl in Lincoln to find such a good medicine as these tablets are. I can hardly believe myself that I am strong and healthy now. They saved me from a serious surgical operation."

MORGAN COUNTY PEOPLE HELD PLEASANT RE-UNION IN CHICAGO

Spent Evening At Jackson Park Talking Over Other Days—Holds This Locality In Tender Memory—Some Notable Morgan County Products—New Officers Chosen.

For several days prior to the 21st of June, the time fixed for the reunion, the women and girls from Jacksonville and other portions of Morgan county now living in Chicago, were putting in order their thin white dresses and the men their wearing apparel of lightest weight, because of the very warm weather, presuming it would continue and be hot at the time of the picnic, but early Saturday morning rain began to pour down and did not cease until after twelve noon. However, during the hours of the reunion not a drop of rain fell but the mercury dropped and overcoats and wraps were worn by those who came from all directions—by the Illinois Central railroad, the street cars and in automobiles.

For more than an hour the gathering was outside the German building in Jackson park, as had been advertised, but the cold breezes from Lake Michigan caused the company, who had been greeting each other and having social chats to file into the building. They took possession of one of the balconies and the business part of the meeting was attended to there.

The president, J. March Patterson, delivered a short address of welcome and referred feelingly to the loss sustained by the death of the vice-president of the society, Mr. Paul Selby, who had gone to the great reunion in the other world. The minutes of former meeting were read by the secretary and approved.

Speeches and remarks were made by the venerable Bailey Dawson, Col. J. H. Chapin, Oliver S. Green, Dr. J. M. Hucks, Henry Kirby, Oliver Mason, Miss Mary Green, L. A. Patterson, John McBride, Jr., Thos. S. Miller, Col. Geo. H. Huntington, Robt. H. Bulkeley, Warren Price and Col. W. H. Edgar.

Many interesting stories of early college days, and other incidents and reminiscences were given and allusions made to some of the illustrious men Morgan county furnished to the state and nation, such as Governors Joseph Dunning, Richardson Yates, the first and second, Newton Bateman, for so many years state superintendent of schools, W. H. Hinrichsen, secretary of state and also congressman, Andrew Russell, state treasurer, United States Senators Richard Yates and Stephen A. Douglas, Sol Smith Russell, the actor, Col. John J. Hardin, General Benjamin Grierson and other war heroes; Rev. Peter Akers; William H. Milburn, so many years chaplain of the United States house and senate, the two Sturtevant and other famous clergymen, and also the great orator and statesman William Jennings Bryan.

All expressed great satisfaction and gave evidence of enjoying this reunion and the anticipation of future similar gatherings. Many present had not seen each other for a quarter of a century, and others met for the first time. One lady enthusiastically said that although she had not lived in Morgan county she was glad she had married a Jacksonville man.

The best speech was made, of course, by a woman—Mrs. Edward S. Newton, daughter of the late John S. True of Joy Prairie, who for herself and husband extended a cordial invitation to the society to hold the next meeting at their home soon, at 3201 South Park avenue. The invitation was accepted, and Saturday, September 27th, 1913, 7 p. m. fixed as the time. Remember date and place.

Officers for ensuing year were then elected as follows:

President—Q. H. Chapin.
Vice-presidents—Robert H. Bulkeley, J. M. Hucks.
Treasurer—Oliver S. Green.
Secretary—Miss Emma B. Patterson.
Committee on by-laws—Q. H. Chapin, Mathew N. Price, Neil Mathison.

After adjournment many lingered for further conversation. About this time came Henry J. Springer, formerly a florist in Jacksonville, loaded with flowers for all. Chas. H. TenEyck and John Redmond were also late arrivals. Notwithstanding the early rain and later cold, the affair was a great success.

Whooping Cough

"I have used Chamberlain's Cough Remedy ever since I have been keeping house and I consider it one of the best medicines I have ever used. My children have all used it and it works like a charm for colds and whooping cough. In fact, I consider it good for any kind of a throat or lung trouble and do not think any household complete without it," writes L. C. Haines of Marbury, Ala. You will look a good while before you find a better preparation than Chamberlain's Cough Remedy for colds and whooping cough in children. It contains no narcotic and is pleasant to take. For sale by all dealers.

WINDSOR THE SUMMER CAPITAL

Windsor, Vt., June 27.—Here as well as at the Winston Churchill place at Cornish everything is being put in readiness for the arrival of President Wilson and his family, who are expected late tomorrow or Sunday morning. The president expects to remain only a few days, but as soon as the important work of congress is disposed of he will return to Cornish to spend the remainder of the summer.

While the "summer white house" will be located at Cornish, the real seat of the executive department will be Windsor, on the Vermont side of the Connecticut river and the nearest railroad and telegraph station to Cornish. The executive offices will occupy quarters in the Windsor post-office building and here will be the headquarters of the numerous clerks, stenographers and secret service men who will be in attendance on the president during the summer.

Beautiful Women.

It has been observed that beautiful women always have good digestion. If your digestion is faulty Chamberlain's Tablets will correct it. They are easy to take and most agreeable in effect. For sale by all dealers.

TO WAR ON ILLEGAL CLUBS.

Galveston, Texas, June 27.—Clubs formed in this state solely for gambling, liquor selling or other illegal purposes will be put out of business, if plans discussed here today at a conference of executive officers of legitimate clubs are carried through. There are 140,000 members of bona fide clubs in Texas. Their organizations are being menaced, it is claimed, by the formation of clubs for illegal purposes. The legislature will be urged to enact a law which will abolish the evil and at the same time not be a hardship to the legitimate clubs.

There is Nothing Better.

Hunt the world over and you will not find a better remedy for diarrhoea than Chamberlain's Colic, Cholera and Diarrhoea Remedy. It always cures. For sale by all dealers.

CHICAGO & ALTON WEEK-END EXCURSIONS.

SOME SLACKENING IN RETAIL TRADE

USUAL SUMMER DULNESS IS REPORTED AT MANY POINTS.

Buyers Confine Operations Mainly to Actual Needs—Crop Returns as a Whole Are Favorable, Especially as Regards Winter Wheat and Corn.

New York, June 27.—Dan's Review tomorrow will say:

There may be some slackening in retail trade, the usual summer dullness being reported at many points, but wholesale distribution continues in fair volume. As for some time past, buyers confine their operations mainly to actual needs, the fast approaching completion of the new tariff naturally resulting in a wholesale conservatism in this respect.

Crops now entering upon their most critical period have passed another week with no serious loss from their previous satisfactory condition, although reports indicate some deterioration in spring wheat. An improved sentiment was manifest in the securities markets abroad, largely on the prospect of a satisfactory conclusion of the important financial settlements at London and Berlin.

Bradstreet's Report.

New York, June 27.—Bradstreet's tomorrow will say:

Business holds up remarkably well notwithstanding that the mid-summer season for inventories is approaching. Crop returns as a whole are favorable, especially as regards winter wheat, cotton and corn; consumption of merchandise is heavy; stocks are lighter, business on current account is larger than seasonally normal and trade in pig-iron has improved, thanks to very low prices.

In the surplus grain producing sections, the illuminating fact is that the merchants, undeterred by tariff matters, are going ahead with their fall purchases, retail trade has been helped by seasonable weather plus clearance sales and moreover, it appears to be easier to get money on commercial paper.

Thus the week's developments spell somewhat more optimism. Business failures for the week ending June 26 were 260, which compares with 239 in the like week of 1912.

BANK CLEARINGS.

New York, June 27.—Bradstreet's bank clearings report for the week ending June 26 shows an aggregate of \$2,947,957,000, as against \$3,285,160,000 last week and \$2,800,231,000 in the corresponding week last year:

	Increase
New York	\$1,638,781,000 * 3
Chicago	300,797,000 12.9
Boston	135,060,000 *15.4
Philadelphia	351,928,000 2.7
St. Louis	70,434,000 10.5
Pittsburg	64,413,000 5.6
Kansas City	47,471,000 6.6
Des Moines	4,779,000 15.6
Peoria	3,088,000 11.7

Take Chamberlain's Tablets. They enable the stomach to perform its functions naturally. For sale by all dealers.

REV. E. C. PIRES WILL GO TO FOSTORIA, OHIO

Former Resident of Jacksonville and Pastor At Taylorville Hands in Resignation.

Rev. E. C. Pires, who has been pastor of the Taylorville Presbyterian church for a number of years, has resigned and will accept a call to the Presbyterian church at Fostoria, Ohio. Rev. Mr. Pires is a former resident of Jacksonville and his friends will learn with interest of the advancement he is making in the ministry. The Taylorville Breeze in speaking of his resignation says:

"Rev. E. C. Pires, pastor of the Presbyterian church the past four years, Sunday morning announced his resignation to his congregation, effective the first of September when he goes to Fostoria, Ohio, to take charge of the First Presbyterian church, having been called to that charge following trial sermons two weeks ago Sunday.

"It was known here several weeks ago that Rev. Mr. Pires had under consideration a call from Fostoria and his visit there resulted in mutually satisfactory arrangements between him and the Fostoria congregation.

"He will continue to help in raising the \$40,000 for a new Presbyterian church here, only \$5,500 more being required until the desired goal is obtained. The church is to be of stone the same as the government building on the same block.

"Rev. Mr. Pires resignation will be accepted by the trustees of the church, although they are loathe to part with him. He and his family have made many warm friends here who will regret to learn of their intention to leave.

"Rev. Mr. Pires came here from Diverson, where he was pastor four or five years.

Fostoria, where he is going, has a population of 42,000 and the First Presbyterian church there has double the membership of the church here.

GEORGIA TO HAVE NEW GOVERNOR.

Atlanta, Ga., June 27.—All arrangements are completed for the inauguration tomorrow of Governor John M. Slaton. The advance guard of visitors throughout the state is ready putting in an appearance. The members of the state legislature now in session will participate in the inauguration ceremonies, which will take place following the customary parade of military and civic organizations. Governor Brown, the outgoing executive, has arranged to take a short vacation after his retirement from office. Rumors are in circulation that he may enter the race for the United States senate.

REV. ROGERS F. CREESEY PASTOR AT MATTOON

Rev. Rogers F. Creesey, who was pastor of Northminster church for a number of years is now pastor of the Presbyterian church of Mattoon. After leaving Jacksonville Mr. Creesey went to Hillboro and from there to El Dorado, Ill.

WORLD'S CHRISTIAN CONFERENCE.

Notable Gathering of Christian Workers Will Be Held at Portland.

Portland, Ore., June 27.—The most notable gathering of Christian workers ever held in America will be opened in this city Sunday and continued through the coming week. The gathering will be the second World's Christian Citizenship conference, for which preparations have been going forward for nearly two years. The National Reform association has conducted the preparations with the endorsement and co-operation of many of the national church bodies.

Statesmen, philanthropists, sociologists, preachers, missionaries, educators and other leaders of Christian thought and action will take part in the conference and exchange views on the big social problems of the day. England, Ireland, France, Italy, China, Japan and other foreign countries, as well as the United States and Canada, will be represented.

Among the problems to be discussed at the conference are peace and war, education and religion, capital and labor, socialism, intemperance, family and divorce, the ethical values of Christianity, prison reform and social service, the social conscience and personal character, claims upon society of its delinquents and dependents, child labor, the observance of the Sabbath, Mormonism, and social evils and their preventives and remedies. World plans are to be adopted for the solution of these and other problems of their kind. An authentic history of the attitude of the different countries of the world and their governments towards these problems is to be prepared. The data thus secured, together with the addresses delivered at the conference, will be printed for general distribution.

Something of the scope of discussion may be shown by the names of some of the speakers and the subjects of their addresses, as follows: "Moral Accountability of Nations," Dr. J. A. MacDonald, of Toronto; "Juvenile Delinquency—its Cause and How to Prevent It," Judge Ben Lindsey, of Denver; "Present-day Tendencies in France," Dr. Charles Merle d'Aubigne, of Paris; "Immigration," Professor Alberto Clot, of Palermo, Sicily; "Christianity as a Ethical Factor in Japanese National Life," Dr. K. Ibuka, of Tokyo, Japan; "Christianity as a Social Factor in Japanese National Life," Dr. S. Motoda, Trinity college, Tokyo, Japan; "The Ethical and Economic Evil of War," Professor Edward Krehbiel, of Leland, Stanford University; "Christianity in the New China," Ng Poon Chew, of Canton, China; "The Obligation of Christian Countries to Their Dependents," Charles W. Fairbanks, former vice president of the United States; "Prison Reform," Oswald West, governor of Oregon; "Co-operation of the State and Voluntary Philanthropic Agencies," Professor James Seth, of Edinburgh, Scotland; "The Relation of Home Missions Work to National Life and Welfare," Bishop William Quayle, of the Methodist Episcopal church.

SHARON THE MORMON MESSIAH.

Sharon, Vt., June 27.—A gathering of elders and other members of the Mormon church was held here today in observance of the anniversary of the death of Joseph Smith. Prophet Smith was killed by a mob at Carthage, Mo., in 1844. His body was brought here and buried near to place of his birth. From Utah and other strongholds of the Mormon faith word has been received that many pilgrimages are being organized to visit the birthplace and grave of the prophet the coming summer. It is believed the gathering of Mormon elders will be the largest in Vermont in many years.

The Joy Of Coming Motherhood

A Wonderful Remedy That is a Natural Aid and Relieves the Tension.

Mother's Friend, a famous external remedy, is the only one known that is able to reach all the different parts involved. It

Is a penetrating application after the formula of a noted family doctor, and lubricates every muscle, nerve, tissue or tendon affected. It goes directly to the strained portions and gently but surely relieves all tendency to soreness or strain.

By its daily use there will be no pain, no distress, no nausea, no danger of laceration or other accident, and the period will be one of supreme comfort and joyful anticipation. To all young women Mother's Friend is one of the greatest of all helpful influences, for it robs childbirth of all its agonies and dangers, dispels all the doubt and dread, all sense of fear, and thus enables the mind and body to await the greatest event in a woman's life with untrammelled gladness.

Mother's Friend is a most cherished remedy in thousands of homes, and is of such peculiar merit and value as to make it essentially one to be recommended by all women.

You will find it on sale at all drug stores at \$1.00 a bottle, or the druggist will gladly get it for you if you insist upon it. Mother's Friend is prepared only by the Bradford Regulator Co., 137 Lamar Bldg., Atlanta, Ga., who will send you by mail, a very instructive book to expectant mothers. Write for it today.

There is a wealth of instruction and comfort to be derived in reading this little book. It is for you if you insist upon it. Mother's Friend is a most cherished remedy in thousands of homes, and is of such peculiar merit and value as to make it essentially one to be recommended by all women.

ERUPTION LIKE PIMPLES ON FACE

Developed Into Sores. Would Almost Scratch Himself Raw. Cuticura Soap and Cuticura Ointment Completely Cured Him.

Wathena, Kan.—"My child's scalp trouble became so bad that I was ashamed to have anyone see him. His head had a solid scab on it. He also had a terrible breaking out on his face which was gradually growing worse. The eruption was like pimples which developed into sores when he scratched which he did almost constantly. Baby would almost scratch himself raw."

"I had used several different kinds of salve, none of them helping in the least bit, when I saw the Cuticura advertisement in the paper and it made me think of the good results my sister had when she used it for her children. I had only used Cuticura Soap and Ointment about two weeks before I noticed that the sores were almost entirely gone and it must have been a month or six weeks he was troubled before I began the treatment. He would get easy when I would put the Cuticura Ointment on him. Cuticura Soap and Ointment completely cured him and he has a clear complexion now. I also use Cuticura Ointment on the older children's heads and find it leaves the hair soft and silky." (Signed) Mrs. W. H. Hughes, Dec. 31, 1911.

Cuticura Soap (25c) and Cuticura Ointment (50c) are sold throughout the world. A single set is often sufficient. Liberal sample of each mailed free, with 32-p. Skin Book. Address post-card "Cuticura, Dept. T, Boston."

For Tender-faced men should use Cuticura Soap Shaving Stick, 25c. Sample free.

The Warmer the Weather

the more essential it is that meat and all meat products be handled and cared for in a perfectly sanitary manner.

This is the point we keep always in view. That we sell nothing to you that we would not willingly accept in our own home.

WIN SECOND GAME OF SERIES
FROM CLEVELAND 3 TO 2.

Sox Runs Are Result of Bunching Hits Behind Falkenberg's Bases On Balls—Naps Score Twice in the Eighth.

Chicago, June 27.—Chicago made it two straight from Cleveland today by winning 3 to 2. The locals bunched their hits behind Falkenberg's bases on balls for their runs. Score:

RED SOX WIN DOUBLE HEADER FROM YANKEES

New York Is Defeated by Boston in First Game 10 to 3; in Second 6 to 4.

Boston, June 27.—Boston took both games in a double header with New York this afternoon by scores of 10 to 3 and 6 to 4. The visitors secured but four hits off Lenoard in the first contest, while Keating was batted hard in the fifth inning during which Boston scored seven runs.

The second game was close up to the eighth inning when Boston scored four runs and broke the tie. Score:
First game—R. H. F.
New York . . . 000 001 010—3 4 2
Boston . . . 102 070 00—10 15 4
Batteries—Keating, Caldwell and Sweeney; Gossett; Leonard and Carrigan.

BROOKLYN EASILY DEFEATS PHILADELPHIA BY 6 TO 1 SCORE

Dodgers Make Eighteen Hits, Eight of Which Were Two Baggers—Stack Allows Three Hits.

Philadelphia, June 27.—Brooklyn made a specialty of two baggers here this afternoon and easily defeated the home team by 6 to 1. Of the visitors' eighteen hits, eight were doubles.
Score by innings:
R. H. E.
Brooklyn . . . 300 000 030—6 18 0
Philadelphia . . . 000 010 000—1 3 1
Batteries—Stack and Fischer; Mayer, Brennan and Killifer.

The cowboys which have been clouding Crayth's batting eye have at last disappeared, and he is now slamming them out with a vengeance.

WASHINGTON DIVIDES DOUBLE BILL WITH PHILADELPHIA

First Game a Pitchers' Battle Between Brown and Johnson With Senators Victors 2 to 0; Athletics Take Second 11 to 5.

Washington, June 27.—Washington and Philadelphia divided today's double header the former winning the first game 2 to 0 and the visitors the second 11 to 5.

Johnson was at his best in the first and not a visitor got as far as third and but two as far as second. Brown, too, pitched a fine game.

Score:
First Game: R. H. E.
Philadelphia 000 000 000—0 3 2
Washington 100 100 00—2 3 0
Batteries—Brown and Lapp; Johnson and Almsmith.
Second Game: R. H. E.
Philadelphia 230 104 010—11 10 1
Washington 400 000 010—5 8 7
Batteries—Hauck, Bush and Schang; Hughes, Galla, Harper and Henry, Williams.

BROWNS DEFEAT TIGERS 8 TO 3

Weilman Kept Hits Well Scattered While Hall Was Wild, Walking Six Men.

Detroit, June 27.—Weilman's pitching was too good for Detroit today and St. Louis won again, the score being 8 to 3.

Hall was wild, walking six men during his period of mound duty. Score:
R. H. E.
St. Louis . . . 003 120 010—8 8 3
Detroit . . . 000 010 011—3 9 2
Batteries—Weilman and Agnew; Hall, Daus and Stange.

Canillon's old man's retreat, the Millers, are so far down in the race that Joe has despaired of coping the bunting in 1913. Minneapolis is a bad sixth—and going down.

REDS TAKE THIRD STRAIGHT FROM CUBS

BENTON PITCHED GOOD BALL, ALLOWING BUT FOUR HITS.

Cincinnati Hurler is a Trifle Wild, Passing Seven Men, But Strikes Out Seven and is Never in Danger—Reds Secure Lead in First Inning.

Cincinnati, June 27.—Except for his wildness Benton pitched good ball and as a result Cincinnati won the third straight game from Chicago 5 to 1.

DECATUR'S MISTAKES HAND GAME TO QUINCY BY 4 TO 2 SCORE

Gems Overcome Early Lead of Decatur and Win in Eighth on Blake's Wild Throw.

Quincy, Ill., June 27.—Decatur took the lead in the fourth when Scherer put the ball out of the lot. Quincy broke the tie in the eighth, showing against Frankie Burns at Kenosha, Wis., a few nights ago, was proof positive that the nonpareil of the squared circle was far away on the shady side on form.

Johnny Coulon, bantam champion of the world, has canceled his engagement with "Kid" Williams of Baltimore, at Vernon, Cal., July 29. He has asked that the meeting be set back to Labor Day, upon the advice of his physician. His sorry showing against Frankie Burns at Kenosha, Wis., a few nights ago, was proof positive that the nonpareil of the squared circle was far away on the shady side on form.

The best marathon talent of this country and Canada will compete in the opening of the international games at Grant Park, Chicago, today.

Comiskey is hot on the trail of Left Fielder Chappelle of the Brewers. The lad with the Napoleonic monitor has been making life a burden for the twirlers in the mid-western AA league the past two seasons, and is one of the very best fielders in that organization. As the Milwaukee team is out for the bunting this year, Mrs. Havenor, the owner, is not likely to part with the player before the end of the playing season.

Bob Hedges of the Browns has declared his team must get out of the seventh hole if it wants him to remain in organized baseball. If the St. Louis magnate could arrange the schedule so that all of his games were pitched against the White Sox he would be dangling that pennant rag in the parlous of Kerry Patch, St. Louis.

GIANTS GIVE TESREAU FINE SUPPORT AND DEFEAT BRAVES

James Also Pitched Excellent Ball But Boston Lost 3 to 1.

New York, June 27.—New York again defeated Boston here today, the score being 3 to 1.

Tesreau and James pitched well but the local twirler received better support.

WARNING.
The premature celebration of the Fourth of July is positively prohibited. Anyone caught discharging fire crackers or fireworks will be arrested and prosecuted.
G. P. Davis, Chief of Police.

THE WORLD'S LATEST FINANCIAL AND MARKET NEWS

LITTLE CHANGE IN STOCK MARKET

STOCKS ROSE AT OPENING AND THEN SLOWLY FELL BACK.

Volume of Business Fell Off to the Slight Proportions of the Recent Bull Period—Distinguishing Feature Was Weakness of New York Central.

(By Associated Press)
New York, June 27.—There were few occurrences during the progress of today's trading to distinguish the stock market from the narrow and professional affairs of the last few days. Stocks rose at the opening in a half-hearted way in response to high prices in London and then slowly fell back. At the end of the session changes in the important issues were without significance.
The volume of business fell off to the slight proportions of the dull period preceding the recent severe break.
Some traders had the market to themselves most of the day. Outside buying which under different conditions might be stimulated by the low level of prices is held in check by the difficulty in obtaining funds except for short dates. Professional opinion again appeared to favor the short side of the market and stocks were offered one rally.
The distinguishing feature of the day's movements was the weakness of New York Central, which sold off 1 1/2 to 95 1/2, the lowest since 1908. Lacking definite explanation of the weakness on this stock traders spoke of possible new financing as a cause of the movement. Unconfirmed reports from Mexico City of a receivership for national railways of Mexico caused a drop of 7 points in the first preferred and three in the second. Rumely common and preferred and both Southern railway issues also were heavy.

Known movements of currency during the week indicated that the banks had continued to pile up cash. A gain in cash for the week of \$6,000,000 or more was predicted.

ADVERSE REPORT ON KANSAS WHEAT CROP

OFFICIAL STATEMENTS PUT THE MARKET IN UPWARD WHIRL.

Bullish Figures on the Kansas Crop Were Available Before the Opening and Had Powerful Effect From the Start—Corn Shows Gain.

(By Associated Press)
Chicago, June 27.—Surprising official statements that owing to excessive dryness of condition of Kansas wheat had gone back as much as 26 per cent in the last month, put the market today in an upward whirl. There was a nervous close at an advance of 3c to 3 1/2c net. Corn showed a gain of 1 1/2 to 1 3/4 over last night and oats a rise of 1 1/2 to 1 3/4 and provisions finished unchanged to 1 1/2c decline.
Trading in wheat as in other grain reached a volume considered by some to surpass that of any previous day this season. Bullish figures on the Kansas crop were available before the opening and had a powerful effect from the start. It was estimated that yield in that state would not amount to more than 72,000,000 bushels whereas speculators had of late been counting on about 90,000,000 bushels.
Heavy selling on the part of leading houses checked the upturn in wheat but the top prices of the day were current within fifteen minutes of the close. The late strength was influenced by assertions that rains northwest had failed to appear where most wanted in South Dakota.
It was also believed that the continued advances in coarse grain would help the rise in the value of wheat.
Crop danger from extreme heat in Oklahoma and other states produced excitement among corn dealers. It was said the entire southwest was alarmed over a possible scorching of the fields. Buying orders were so numerous that all reactions proved unimportant. Intense heat and dry weather over the states of largest production were regarded as even more adverse to corn than to wheat. Special interest was aroused by the Kansas state report making the crop condition there 49 against 75 a year ago. In the provision crowd the grain bulge was ignored. Prices went lower with hogs.

CHICAGO LIVESTOCK MARKET.
Chicago, June 27.—Hogs—Receipts, 19,000; market generally 5c lower; closed firm. Bulk of sales, \$8.65 to \$8.75; light, \$8.55 to \$8.65; mixed, \$8.50 to \$8.60; heavy, \$8.30 to \$8.45; rough, \$8.30 to \$8.45; pigs \$6.75 to \$6.85.

LEGAL CONTROL OVER STREAM POLLUTION

FOURTH ARTICLE ON LIMITING OF WATER POLLUTION.

Communities Not Likely to Spend Large Sums of Money for Sewage Purification Works to Protect Neighbors on Streams Below Unless Forced to Do So.

(By Paul Hansen, Engineer, State Water Survey).

The matter of limiting stream pollution can be adequately controlled only by some central authority for the reason that the problem is essentially one of an intercommunal nature. If left to individual communities, very little could be expected in the way of results. Communities are not likely to be altruistic enough to spend large sums of money for sewage purification works to protect neighbors on the stream below unless such altruism is induced by damage suits which render sewage purification the cheapest way out of the difficulty. But the law suits are costly if long drawn out and the results are often unsatisfactory.

It is necessary to repeat that specific problems relating to stream pollution must for successful solution be placed in the hands of experts and it is, therefore, necessary or at least strongly advisable that every state have an expert commission. Among many there is a strong prejudice against commissions, inasmuch as the multiplication of commissions is looked upon as a delegation of legislative and executive powers to others than direct representatives of the people. This need not necessarily be so, however, for a law may be framed requiring in general terms that streams must be maintained in an inoffensive condition and that

HOUSE WIFE'S PROBLEM OF FEEDING THE FAMILY

Something More is Now Demanded of the Woman of the Home Other Than Merely Being a Good Cook.

(By N. E. Goldthwaite, Assistant Professor Household Science).

In these progressive days, when the farmer is availing himself of the fast accumulating information of the scientists concerning balanced rations for his stock, it behooves the woman of the home to make herself as intelligent as present knowledge will allow, concerning the rational feeding of her family. Today, merely to be a good cook, excellent as that accomplishment may be, is not sufficient. Something must be demanded. A discriminating intelligence regarding the nutritive values of food materials and their functions in building and preparing the body, is fast being recognized as a necessity on the part of her who plans the meals.

According to the chemist, the human body is composed of some fifteen elements. Of these elements, six—oxygen, carbon, hydrogen, nitrogen, calcium and phosphorus—compose about 99 per cent of the body, the remaining one per cent being made up mainly of potassium, sulphur, sodium, chlorine, magnesium and iron, with traces of three others—iodine, fluorine and silicon.

No one of these elements occurs in the body in a free state. Each one is always combined chemically with one or more other elements, thus forming the various compounds which comprise the body. Prominent among these compounds are water (composed of hydrogen and oxygen); proteins, (composed of carbon, hydrogen, oxygen, nitrogen and sulphur); carbohydrates and fats (each being composed of carbon, hydrogen or oxygen, in varying proportions); and various forms of mineral matter, made up of the remaining elements enumerated above.

POULTRY RAISING AS A FARM PROPOSITION

REVIEW OF DATA OBTAINED RELATING TO POULTRY INDUSTRY.

Successful Poultry Raising, Like Dairying, Demands Careful and Intelligent Attention to Make it Attain its Full Possibilities.

(By D. O. Barto, in Charge of Poultry Husbandry).

A good many farmers are beginning to ask if poultry for the production of eggs and for meat can be made a profitable proposition? Can the growing and care of fowls on

A pair of light Brahma fowls, Massachusetts Farmers use this breed to produce the ten-pound "soft roasters" for the Boston market.

fertile, high priced land such as constitute the farms throughout the corn belt country be shown to be at all comparable in the returns they may be made to yield with the growing and care of cattle, sheep, or hogs or the management of a dairy? In fact, what these farmers want to know is whether poultry farming may be considered as a real man's job of enough importance and dignity to be given an equal place with the other divisions of work in the plans of diversified farming.

It is so difficult to break away from long accustomed habits of thought and ways of looking at things that it is not strange that farmers should ask these questions and hesitate to regard chicken farming as a factor deserving serious attention on a busy farm.

Unto the present time poultry raising in the middle west, with few exceptions, has held a place on our farm operations that it could be counted as hardly more than an incident and was not reckoned in as one of the farm assets at all.

Poultry Rarely Attended by Men. Moreover, the care, such as it was, given to poultry on these farms was rarely attended by a man. The children, a busy housewife ambitious or anxious to lighten the store bill, some invalid unable to share in the regular duties of the farm, or grandfather, whose days of active work were over, looked after the chickens.

Captains make good brooders. They will take incubator chicks at any time and stay with them until snow flies. (The sign shown in the cut reads: "Ma is a suffragette but Uncle Rufus ain't in politics.")

But from time to time accounts appear in the papers of poultry farms, or poultry raising on the farm, on a scale large enough to arrest the attention of the ambitious farmer and cause him to question whether poultry raising may not be made one of the large factors in organized farm operations.

At least it may be worth while to review the data that have been obtained relating to the poultry industry and which give reliable information on those phases of the work which farmers will naturally want to know before deciding to undertake it.

The keeping of poultry, like the keeping of other domestic animals on the farm, is done for the purpose of converting the crops of the soil into some form of animal product for which there is a demand at a price which makes the change in the form

of the farm product a source of profit to the farmer. In this way the farmer becomes a middleman, buying the crops grown in his fields, and a manufacturer when he turns them into other forms by feeding them to his farm animals.

Demand for Poultry Products. The poultry farmer wants first to know whether there is a steady demand for poultry products—eggs and table poultry.

One has only to read the annual report of the secretary of agriculture to learn how great is the value of the poultry products of the United States, surpassed by only two agricultural products, corn and hay, and rapidly they are increasing in value and yet how far short of supplying the demand the production of poultry products fall.

The superintendent of dining car service of the Illinois Central railway recently wrote to the poultry department of the University of Illinois stating that their road was procuring through their Chicago commissary for their dining car service approximately 4,500 dozen of eggs every month and asked for an opinion as to the feasibility of the I. C. R. R. establishing its own poultry farm along its line somewhere in Illinois to produce its own poultry supplies. This incident is given to call attention to the enormous demand for high grade table eggs by the best class of customers.

Carefully conducted experiments made at Ontario Agricultural college show that the average cost (for feed) of producing a dozen eggs is slightly less than 12 cents. This statement is based on the value of the grain eaten, which averages 5 2-3 pounds per month, or 65 pounds for the year; and the average egg yield per hen, which was a little more than 129 eggs per hen.

Cost Should be Less in Illinois. On the rather more productive land of Illinois and with a climate much milder than in Canada, the cost of feed should be somewhat less and the average egg production per hen probably more. A conservative estimate of the cost of feeding a laying hen on the farm where a considerable portion of the feed is raised and where she has free range for much of the time would be 75 cents. A fair estimate for the egg yield per hen where large flocks are kept would be 1 dozen, and careful management may considerably increase this average.

Allowing an average price through the year of only 25 cents per dozen, the value of the egg product per hen would be \$2.50, or \$1.75 per hen above the cost of the feed.

The average weight of hens kept on the farm is from 4 to 5 pounds, or from 200 to 250 hens per 1,000 pounds of live weight, which is the average weight of a dairy cow. It is interesting and significant to compare the returns from a thousand pounds of laying hens with a thousand pounds of dairy cow.

The cost of housing the hen will vary with the climatic conditions of the poultry farm and to system of housing used, but it can be placed within the limits of 75 cents and \$1, and the depreciation on these buildings per year would be small.

Other experiments, also made by the Ontario Agricultural college showed that it required 3 1-3 pounds of grain to grow a pound of chicken, or that a four pound pullet or cockerel could be produced on 13 to 14 pounds of grain. At \$30 per ton this amount of grain would be

TREATISE ON THE COMPOSITION OF MILK

MILK IS MOST SATISFACTORY FOOD MATERIAL ELABORATED BY NATURE.

Milk From Various Animals has Same Physical Properties and Ingredients, Differing Only in the Percentage of Composition.

(By J. M. Barnhart, Dairy Husbandry, University of Illinois).

Milk is the nutritive secretion of nursing mammals. It contains all classes of nutrients; protein, fat and carbohydrates and salts in such proportions as to make it a complete food. It is the most satisfactory food material elaborated by nature. Normal milk of all species of mammals, contains water, fat, casein, albumin, sugar and carbon dioxide. Milk from various animals has the same general physical properties and the same ingredients, differing, however, in the percentage of composition.

Of all varieties, the milk of the cow is by far the most important. From its universal use, in speaking of milk, cow's milk is meant in all cases unless otherwise stated.

Milk is a yellowish-white opaque fluid with a slightly sweet taste and an odor recalling that of the animal. It is denser than water, containing in complete solution the sugar, albumin and mineral constituents and in less complete solution the casein, while the fat globules are held in suspension. The opacity of milk is due to the interference with the passage of light through the fluid by the casein. The yellow color of milk is imparted to it by the fat globule. It varies greatly in milk from different breeds as well as in milk from the same cow at different seasons, being as a rule paler during the winter months and having its greatest intensity soon after the cow is put out on pasture.

The following arrangement shows the general relation of the constituents of milk, as well as the percentages in which they are found in average normal milk.

Milk.
Water 87.3. Solids 12.7: Gases.
Fat 3.6. Carbon dioxide.
Solids-not-fat 9.1. Nitrogen.
Milk sugar (carbohydrates) Oxygen.
4.9.
Ash (Salts) 0.7.
Protein.
Casein 3.0.
Albumin 0.5.

The fat in milk is present in the form of transparent globules, held in suspension in the milk serum. The average size of these globules is 1-10,000 of an inch in diameter. In one drop of milk there are about 100,000,000 of them. Butter fat is of peculiar and complex composition. It is not a single chemical compound, but is a mixture of several different compounds called glycerides. Each glyceride is formed by the union of glycerine with some acid. For instance, palmitin is the glyceride formed by the combination of glycerine with palmitic acid. Each glyceride bears a specific name derived from the particular acid in combination with glycerine. There are about ten of these glycerides in butter fat. Palmitin is present to the extent of 40 per cent; olein, 31 per cent; myristin, 10 per cent; laurin, 5 per cent, and each of the other glycerides from 1 to 3 per cent. Butter fat contains about 12.5 per cent of glycerine in combination with acids. These acids are divided into two groups.

(1) Non-volatile and insoluble in water.
Palmitic.
Oleic.
Myristic.
Stearic.
Lauric.

(2) Volatile and soluble in water.
Butyric.
Caproic.

A study of these acids in a sample of butter enables the chemist to distinguish pure butter from artificial butter. Pure butter fat contains less non-volatile and more volatile fatty acids than adulterated butter fat.

The nitrogen compounds of milk; i. e., the proteins of muscle producing class of food nutrients consist of casein and albumin. Casein is the most important on account of its quantity and its high food value. Because of the presence of this constituent in milk it is possible to make cheese, casein constitutes about 80 per cent of the total amount of proteins. It is in combination with calcium phosphate in such a finely divided form that it is held in suspension in the milk serum. Casein is familiar to the most of us in the form of the white curd which forms when milk sours. Curd differs from milk-casein in that the combination with calcium phosphate is broken up by the excessive amount of lactic acid in sour milk. When this happens the casein is unable to remain suspended in the milk serum and separates out as curd.

Albumin is the other milk protein in importance. (It forms approximately 15 per cent of the total amount of the nitrogen compounds of milk). It is soluble in the milk serum and quite similar to the albumin of eggs.

Milk sugar or lactose is the sugar found in milk. This carbohydrate occurs only in milk. It is the specific product of the mammary gland. In the souring of milk the lactose is converted into lactic acid. The amount of lactose is decreased about 1/4 and there is formed about 0.9 per cent of lactic acid. Milk sugar is

normally present in amounts varying from 3 to 5 per cent.

Salts of milk are present in small amounts of about 0.7 per cent. They are important in their relation to other constituents of milk, but the present knowledge of these compounds is incomplete.

The composition of milk varies. As a rule, the percentage of milk sugar and ash is the most constant, that of fat is the most variable, while the protein varies with the fat, but to a smaller extent. The following variations may be regarded as usual: Fat 3.6 per cent, solids-not-fat 8.5-9.5 per cent, protein 3.3-3.5 per cent, milk sugar 4.6-5 per cent, and ash 0.7-0.78 per cent.

However, the milk which reaches the consumer is practically always the mixed product from several cows, so that individual variations have comparatively small effect.

The percentages of fat and protein are usually higher in autumn and winter than in spring and summer. They also increase as the amount of milk decreases toward the end of each lactation period. Evening's milk is usually 0.3-0.4 per cent richer in fat than morning's milk. The last portions of a milking are much richer than the first. The influence of food upon the percentage composition of milk is usually only temporary. In general, the peculiarities of breed and the qualities of the individual animal are the most important factors that determine the richness of milk.

PHI ALPHA DELTA CONVENTION.

Chicago, June 27.—The Phi Alpha Delta society, the second oldest and second largest of the legal fraternities, began its annual national convention at the Hotel Sherman in this city today with a large attendance. The fraternity was formed in 1898 at the Northwestern university law school. It now has chapters at 29 of the leading law schools of the country.

WILL TEACH GERMAN.

Miss Amelia Gruenewald has secured a position as instructor in German in the public schools of Davenport, Iowa.

Typical valley farm scene among the mountains.

MAINE ELECTION ATTRACTS ATTENTION.

Augusta, Me., June 27.—Although the special election in the Third Maine district to choose a successor to the late Congressman Goodwin will not be held until September, the contest already is beginning to attract wide attention. The situation as it appears at present is full of interesting possibilities.

The late Congressman Goodwin, Republican, was elected in September last over Gould, Democrat, the sitting member, by a plurality of only 709. Mr. Goodwin's victory was attributed to his personal popularity, his long acquaintance with Republican politics and the prestige resulting from his years of intimate association with Thomas B. Reed.

The September election was held while the truce between the Republicans and Progressives was in force. The Progressives had no candidate in the field, and those who desired to flock apart from the old parties had to choose between the Socialist and the Prohibition tickets. In all the minor parties threw less than 800 votes. Now the spirit of Maine politics has undergone a change, and it is expected that the Progressives will have a candidate of their own in the coming election. With a cornered fight among the Democrats, Republicans and Progressives, the result will afford an excellent opportunity of measuring their comparative strength and of noting any changes in political sentiment that may have come over the voters since the general election of last November.

QUICK RELIEF FOR RHEUMATISM.

says: "Dr. Detch's Relief for Rheumatism has been a wonderful benefit to me. I could not lift my foot, had to be lifted for two months. She began to use of the remedy and improved rapidly. On Monday she could not move and on Wednesday she got up, dressed herself and walked out for breakfast." Sold by L. P. Alcott, druggist.

DEAF SCHOOL CONFERENCE.

Indianapolis, Ind., June 27.—The tenth conference of superintendents and principals of American schools for the deaf assembled in this city today and will continue in session for a week. Leading educators of the deaf from all parts of the United States and several from Canada are in attendance. The sessions are to be held in the new building of the Indiana school for the deaf, which is said to be the best equipped institution of its kind in the country.

WHERE EDUCATIONAL PROGRESS IS GREATEST

LOS ANGELES PECULIARLY FORTUNATE IN EDUCATIONAL DEVELOPMENT.

The Seven High Schools of the City are so Differentiated as to Permit Each to Emphasize Some One Social Need of the Community—Physical Equipment is on Extensive Scale.

(By H. A. Hollister, High School Visitor, University of Illinois).

(The following article was written for the Corn-Belter by Professor Hollister after an extended tour of inspection and study of schools in the west.)

Southern California seems likely to be first in working out a full and satisfactory adjustment of education to the needs of democracy. The city of Los Angeles and smaller nearby cities and towns of that section seem peculiarly fortunate in their educational development. Among other things they are demonstrating the practicability of using the public schools for training in trades and useful occupations as well as thoroughly preparing those who desire it for professional training.

Los Angeles has organized her system of schools into elementary, intermediate and high schools. The work of the elementary schools is organized on most approved lines, with careful scientific treatment of all special cases for whom special classes are organized as a result of thorough medical and psychological examinations. Competent free clinics are conducted for the remedying of such physical defects as are known to affect seriously the child's possibilities of development. The psychological clinic is similarly used in properly classifying and prescribing

treatment for those having mental defects. The intermediate schools are organized departmentally in buildings specially provided for the purpose. At present these schools include grades seven to nine inclusive. Not only is the work in the common branches carried forward to a higher state of perfection, including drawing, color work, and music, but provision is also made for thorough training in manual arts and the rudiments of business operations. Furthermore the foreign language work is begun earlier, while the memories of children are most retentive, their vocal cords most pliable, and their docility under drill processes most favorable to the early stages of such training.

High School Organization. The high schools organized to include the remaining grades usually found in the high school period, with two additional years of junior college work. The high schools of the city, seven in all, are so differentiated as to permit each to emphasize some one social need of the community at the same time that liberal provision is made in each for all forms of high school training. In this way these high schools seem to be solving successfully the problem of providing in one system for such liberal cultural training as becomes an American citizen and also for thorough preparation for various leading occupations with the industries of the city and surrounding country. For instance, in the Polytechnic high school one may prepare for business or mechanical pursuits; in the Gardena high school for agriculture and related lines of work; in the San Pedro high school for marine industries and pursuits, and in the original Los Angeles high school for liberal arts and professional pursuits. The Hollywood school in a strictly residence section of mostly well-to-do classes places especial emphasis upon home and community life and interests. The manual arts school is centrally located and provides almost equally for the essential features of all lines except marine interests.

Needless to say the physical equipment for these schools is on an extensive scale. In this respect a loyal Illinoisian aware of the vast wealth and consequent ability of his own state, is compelled to blush a little as he realizes the relative poverty of equipment which has to office in our own large centers of population, to say nothing of the superior organization to which these far western schools have attained.

Orchard scene showing results of careful tree culture. These trees received proper methods of pruning and spraying.

they shall not be detrimental to health. This leaves to the commission not arbitrary powers, but the simple function of determining points of fact within limits prescribed by prior legislative enactment. That is to say, the commission will determine when a stream is in danger of being made offensive and when it is in danger of being made detrimental to health, and thereupon decide what, if any, purification or industrial wastes is necessary, whether water supplies may or may not be taken from streams and to what extent they must be purified. Such a commission should be supplied with ample appropriations to enable it to obtain all necessary information for its guidance whether this consists in maintaining laboratories or in carrying on experimental and research work. As even the best of commissions may at times grow arbitrary or become unduly biased in its views there should always be made provision for ready appeal from the decisions of a commission to an independent special arbitration board of experts, and, of course, the mustiest the inalienable right of final appeal to the courts.

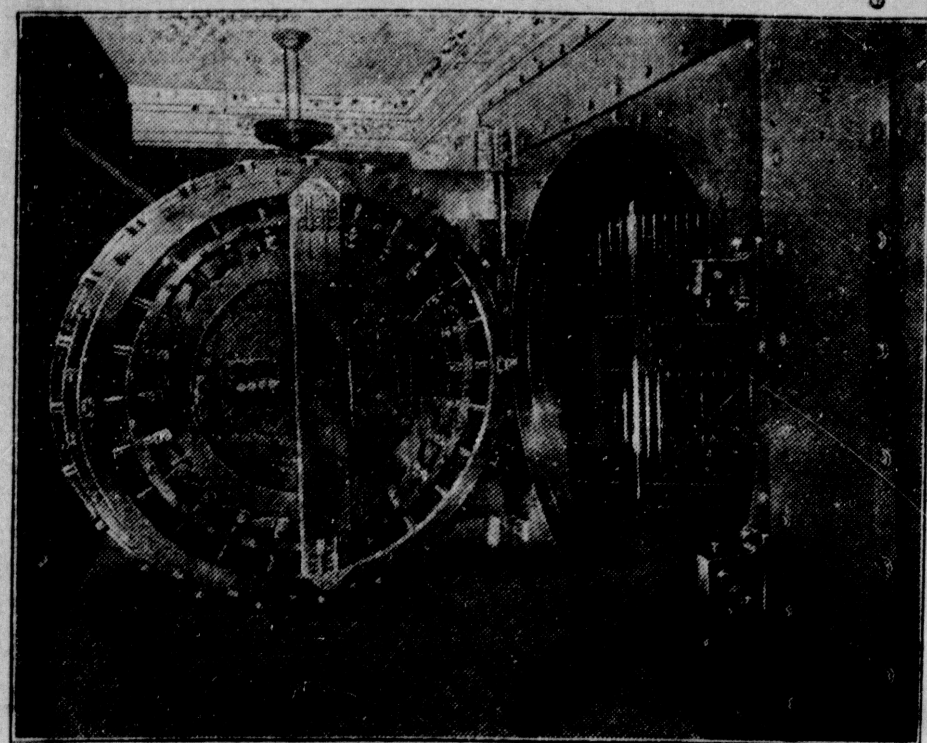

Summary. Summarizing in the briefest possible terms it may be said that all surface streams must of necessity be polluted to an extent that renders them unsafe as domestic water supplies without purification. On the other hand the public is entitled to clean streams, and special protection should be afforded to those streams which because of their beauty and accessibility from the cities constitute valuable grounds for urban populations. When not a menace to health, certain exceptions may be permitted with respect to maintenance of clean streams. Such exceptions, however, must always be regarded as special cases, necessitated by unusual local conditions. A limitation of stream pollution is most effectively and most equitably carried out when under the general elastic general laws which represent in broad terms the will of the people.

The AYERS SAFE DEPOSIT VAULT

A SAFE DEPOSIT BOX is not a luxury but a necessity to the owner of stocks, bonds, deeds, mortgages, insurance policies and other valuable papers.

ANXIETY about jewelry or silverware not in use is dispelled when it is kept in a Safety Deposit Vault.

PRIVATE SAFE DEPOSIT BOXES in this great vault, protected by over 190 tons of steel, rent for less than a cent a day.

PRIVATE LOCKED COUPON ROOMS behind the grille work with desk, chair and writing material are at the disposal of the patrons as often as desired.

VISITORS WELCOME—An attendant will always be found at the vault who will be glad to show you through.

THE AYERS NATIONAL BANK

TWO CHILDREN
DROWN IN POND

LETA AND LAWRENCE NEHR
FIND WATERY GRAVE.

Son and Daughter of Mr. and Mrs. Isaac Nehr, Who Reside on Huffaker Farm Near New Berlin Meet Death While at Play in Water—Coroner Rhodes Will Hold Inquest Today.

Leta and Lawrence Nehr, aged 11 and 7 respectively, children of Mr. and Mrs. Isaac Nehr, who reside on the farm of George Huffaker, five miles south of New Berlin, were drowned Friday afternoon in a pond near the family residence, while wading in the water. The children left the house, unknown to the mother, about 2 o'clock in the afternoon and were found at 5 o'clock by Wellington B. Huffaker, a son of George Huffaker, who was a member of a searching party formed to look for the children. Coroner Rhodes of Springfield will hold an inquest today.

The children played together a great deal of the time, as there are not many little folks close by in that community, and their mother did not think much of their absence. They disappeared from the house shortly after 2 o'clock and some time later when they did not appear she became uneasy. Shortly before 5 o'clock she went to the field and informed her husband of the absence of the little ones. Mr. Huffaker employs several men on his large farm and all quit work to form a company to search for the children. Wellington Huffaker, a son of George Huffaker, thought that the youngsters might have gone down to the pond, which is located about a quarter of a mile from the Nehr residence. When he reached the place he saw the shoes and stockings of the children on the bank and almost at the same time saw the bodies of the children floating in the water, about fifteen feet from the water's edge. He waded out and carried them to the bank, where help was summoned and a physician called. They were beyond all medical aid as it is supposed they had been in the water for over two hours.

The pond in which the children drowned has recently been constructed and while it is shallow at the edge there are places on the bottom which are deeper and it is supposed the children waded into one of these depressions. An idea has been advanced that one of the children waded out too far and called for help and the other one endeavored to lend assistance. The bodies were floating close together when found.

Mr. and Mrs. Nehr were former residents of Loami, Ill., and have been living on the Huffaker farm for a year. The little girl and boy, it is said, were adopted by Mr. and Mrs. Nehr three years ago while the family resided in Colorado. As has been previously mentioned the girl was 11 years old and the boy 7. They were bright children and interesting to all who knew them.

Coroner Rhodes of Springfield was notified of the drowning and will hold an inquest today.

TRAVELING REQUISITS—Big values in bags, trunks and suit cases. Breckon & Jenkinson.

PASSAVANT NOTES. F. W. Niebur of Pittsfield was a visitor at the hospital yesterday.

Mrs. F. L. Fishback and little daughter, Virginia of Carrollton were in the city yesterday and accompanied Mrs. Fishback's little son Baker, who has been a patient at the hospital, to his home. Dr. Glenn of Carrollton, a nephew of the little boy was also in Jacksonville yesterday.

Miss Luella Rothwell, a nurse at the hospital who has been to Winchester on her vacation is home again.

Miss Mabel Sanderson, a nurse at the hospital has gone to St. Louis on her vacation. She will also visit with friends in Winchester.

A light weight coat looks well and means warm weather comfort. Knoles.

LEAVE FOR OREGON. Misses Flora and Rachael Hall, Miss Hagerty and Mrs. Hawes Yates and sister left yesterday for Woodland, Ore., for an extended visit.

Straw hats in variety. Knoles.

FUNERAL NOTICE. Funeral services for Miss Rose Elizabeth Luby will be held at the Catholic church at Alexander Monday morning at 9:30 o'clock.

MORTUARY

Knight.

Mrs. J. A. Crum received word Friday announcing the death of her brother, Samuel E. Knight, who passed away at his home at Charleston, Wednesday afternoon at 3 o'clock after an illness with dropsy. The deceased was 70 years of age and had been an engineer on the Burlington, out of Malesburg for twenty years. He also had a position as engineer on the Clover Leaf road for a number of years, but retired some time ago. He is survived by his wife, two daughters, Mrs. Mamie E. Dillar of Charleston, and Mrs. Elsie Alexander of Oklahoma City, Okla., who was at his bedside until last Tuesday when she returned to her home. He is also survived by three sisters: Mrs. John Kiste of Bowen, Mrs. Perry Henderson of Arcadia and Mrs. J. A. Crum of this city.

Fitzpatrick. Mrs. Cora Fitzpatrick passed away at her home two and one half miles northeast of Litterberry Friday morning at 2 o'clock.

Mrs. Fitzpatrick, whose maiden name was Cora E. Mullens was born in Cass county, a daughter of James and Martha Mullens, October 28, 1885. She was married to Samuel Fitzpatrick November 18, 1908 and is survived by her parents, her husband, one daughter, Lottie Grace, aged 3 years, and the following brothers and sisters: Charles Mullens of Concord, Frank Mullens of South Dakota, Edith, Minnie and George Mullens of Concord. She was a woman of a sweet disposition and had a wide circle of friends.

Funeral services will be held at the Christian church at Litterberry Sunday afternoon at 1:30 o'clock and interment will be made in Arcadia cemetery.

No is the time to secure a LIGHT WEIGHT STRAW or SILK HAT of FRANK BYRNS Hat Store.

ON ROAD FOR COMPANY.

Walter Holley, who has been visiting with relatives for several days has gone to Milwaukee, where he will be a traveling representative for the Harley-Davidson motorcycle company. Mr. Holley quit this company some time ago but they wrote him a letter making a good offer for a road position, which he could not afford to turn down. Howard Jameson of this city is also a traveling representative of the Harley-Davidson company.

Straw hats in variety. Knoles.

FUNERAL NOTICE. Funeral services for Miss Rose Elizabeth Luby will be held at the Catholic church at Alexander Monday morning at 9:30 o'clock.

GROUND IS SURVEYED
FOR PYTHIAN ENCAMPMENT

Indiana Officers of the Uniform Rank
Declare Camp the Finest in Illinois.

The Knights of Pythias are to hold their state meeting this year in Danville during the month of August. The following account of the grounds is taken from the Danville Commercial News:

Harry Wade of Indianapolis, Ind., grand keeper of records and seals of the Indiana Knights of Pythias, and General William Gray of Covington, were in Danville recently, looking over the ground for the encampment of the uniform rank, Knights of Pythias, to be held here in August. The proposed camp ground at Lincoln park was gone over and a survey was made, to determine whether there would be enough ground in the park for all of the tents that will be necessary to house the men of Illinois and Indiana who will be present at the encampment. The surveyors say there will be room to spare, as far as the tents are concerned and they are also of the opinion that Danville has the finest camp ground of any city in the state. Lincoln park, they say, is well laid off and is so level that it is an ideal place for a gathering of the kind this encampment is to be. There are no hills to climb and the ground is easily accessible to either the Lincoln park line or the street railway or the West English branch. The very little trouble in handling the crowds, as they can be better cared for at this point on account of the two street car lines than from any other points in Danville.

Headquarters at Pavilion. The headquarters of the two state encampments will be in the big pavilion at Lincoln park. The tents will be on the ground south of the pavilion and will extend to the street running east and west along the south side of the park. This street will be taken up with tents and it is thought that there will be plenty of room in the ground laid off. It is expected that 3,000 men will be encamped during the gathering of the Knights in Danville and every effort will be made to entertain the visitors in a manner which they will not forget for some time. There will also be plenty of entertainment for the people who come to Danville during the week the Knights are encamped here. There is to be dress parade every evening and drills of various kinds during the day. A number of prizes will be offered for the best drilled company and it is expected that there will be a great deal of rivalry among the various companies of Illinois and Indiana.

MAKES REPLY TO MR. NEWMAN.

Dr. Clampt Claims Commissioner's Activity in Board of Education Affairs is Result of Personal Feeling. In reply to a statement made by Commissioner Newman in the Journal Friday morning Dr. L. H. Clampt, member of the board of education, made public the following:

To the Public: I notice in the Journal of Friday morning's issue, June 27, that Mr. Newman has attempted to give his excuses or reasons why he has been so active in the quo warranto proceedings against me, for fear that the people of the city might believe that he has some personal motive or grievance to settle.

According to his statement, his only objection has been that he has been opposed to the methods employed by the board of education with reference to the erection of the eighth grade building.

If, in Mr. Newman's explanation, he had come out squarely and made full confession as to the absolute truth why he is fighting Dr. Clampt personally, then I would not have taken any exception to his statement.

It is not my wish nor desire to take up matters of this kind in a public debate, especially as it is apt to expose matters which Mr. Newman might not wish to be known, and as I have always had a very profound respect for persons who are my superior in age, yet to protect myself and set the thinking people aright, I kindly ask your indulgence with this statement.

The explanation of Mr. Newman is all unnecessary, as he has so frequently expressed himself upon the street and elsewhere that the people at large are well posted as to the cause of his attitude toward me, and in order to refresh Mr. Newman's memory I will ask him why he neglected his duty and violated his oath as a commissioner and went to the polls, electioneered and worked hard all day to defeat me as a member of the school board? Why have you told parties that I was the cause of your daughter being removed as a teacher in the city schools, and that you were going to oust me and get even? What was your attitude towards me when I started the proceedings and compelled you to take certain funds, which was deposited in the name of your business, and put to the credit of the proper person in the proper place? Answer these questions truthfully and let the good people of the city judge whether there is any personal animosity against Dr. Clampt.

At the proper time I will endeavor to answer other allegations and attempt to satisfy the citizens that the school board has been making every effort to protect the masses of the people and give to the children the opportunities they should have.

Respectfully,
L. H. Clampt.

"Pull Illinois Out of the Mud" Is a Good Slogan—Good Roads Mean Much For Jacksonville.

Jacksonville needs some good road enthusiasts like the writers of the communications seen below. Now is the time for all new automobile owners getting together a live organization and agitate good roads, at least one that might be made a part of a transcontinental highway across Illinois with Jacksonville as one of the bright spots.

Good roads are what we can have and they will prove big dividend payers for this city.

Pittsfield Commercial Club, Pittsfield, Illinois.

Gentlemen:

Can you give me any information as to what is being done on the building of the road from Pittsfield through to Griggsville and also can you not have a meeting over at Jacksonville with the Commercial Club and see that the roads are completely dragged and arrangements made for keeping them dfagged during the

summer, from Jacksonville to the river at Valley City. It is quite necessary for if we are going to make a fight for this transcontinental route that it be brought up to such a standard that the "knockers" riding over the road will have nothing to say about it. Jacksonville and Springfield should also hold such meetings along the same line.

Very truly yours,
F. W. Buffum,
State Highway Commissioner
Letter From Former Citizen.

Dear Sir:

Last Thursday I took an automobile trip through Park County, Ind. This county has a population of 42,000 people, and they have about 1,800 miles of macadem roads. These roads cost for construction and maintenance yearly a tax of about ten cents per acre on all farm lands in this county.

I talked to a number of farmers whose land is valued at from \$60 to \$75 per acre and they feel that they would not want to do without these roads at double the present cost.

I thought that this might be of interest to you and Felix Farrell. If you want any more information on that subject, I will be glad to give it to you.

Yours very truly,
Home Packing & Ice Co.

Isaac Powers, Mgr.

Be Progressive Once in Your Life.

Supposing that most of the property you own is situated within the city limits of Jacksonville, does it not behoove you from purely a selfish and financial standpoint to sacrifice an hour or two twice a month to meet with your fellow business men and talk over some of your city problems looking to a united and early solution of them.

We all gathered together week before last in a good fellowship meeting which rolled in enthusiasm. This spirit means much at present time to a progressive Jacksonville's policy. It can't be termed progressive if we pay attention to the indifference and don't care attitude of some of our neighbors.

Next Monday evening the large and the small property holder will meet again for a 6:30 dinner at the Dunlap Hotel. Such arrangements are found necessary to get us all together and they are getting us together in a way that is quite noticeable.

Be progressive and meet with us next week.

Many men find feet relief by wearing light colored Everwear Half Hosiery sold by FRANK BYRNS' Hat Store.

ATTACKS WIDESPREAD

MANUFACTURE OF VACCINES.

London, Ont., June 27.—Addressing the Canadian Medical association here today Dr. Frank Billings of Chicago made an attack on the widespread manufacture of vaccines in the United States. He said that there was too much reckless experimenting along this line and to much exploitation by drug firms of alleged vaccine cures for any and all diseases.

CAPTAIN DIES SUDDENLY.

Goconda, Ill., June 27.—Captain Edward Hines of the steamboat W. C. Jutte, which tied up here last night, was found dead in his state room today. An inquest has been ordered.

UNION BAPTIST CHURCH.

THE TEMPERATURES.

The temperatures for Friday, according to G. H. Hall, weather observer at Alexander, were: maximum 96, minimum 71.

CAPT. H. W. HITT DIES AT HIS HOME FRIDAY MORNING

Deceased Was Civil War Veteran and Former Jacksonville Business Man—Funeral Sunday.

After an illness of several months, during the past weeks of which death was hourly expected, Capt. Henry W. Hitt, 76 years of age, passed away Friday morning at his home, 329 South Church street. Last Christmas eve the deceased suffered a stroke of paralysis and about ten days ago he suffered a second stroke. Since his second affliction he had been in a critical condition.

July 4, 1836, Capt. Henry W. Hitt was born on a farm ten miles west of this city. His birthplace was then a part of Morgan county, but since has been made a part of Scott county, where the town of Merritt is now located. He was a son of Elisha B. and Sarah (Parker) Hitt, natives of Bourbon county, Kentucky, where the father was born in 1808 and the mother in 1818. The family came to Morgan county in 1826, among the pioneer settlers, and the elder Mr. Hitt served two terms in the state legislature. Most of his life was devoted to farming, but for a few years prior to his death in 1881 he engaged in the livery business.

Capt. Hitt was married November 7, 1861, to Miss Belle Stevenson and they were the parents of three children, one of whom, Anna Lou, died March 17, 1892, aged 23 years. The two surviving children are Elisha B. of Springfield and Mrs. Sallie Crane, widow of the late Rev. Dr. Charles A. Crane. Mrs. Hitt passed away October 31, 1870, and Capt. Hitt was married a second time, January 28, 1874, to Miss Libbie Stevenson, a sister of his first wife. She with the two children by his first marriage survive. The deceased is also survived by one grandson, Henry Hitt Crane; four sisters and one brother, Mrs. D. C. McCoy of Michigan City, Ind.; Mrs. J. H. Osborne of Chicago; Mrs. J. H. Holmes, Mrs. James R. Matthews and W. D. Hitt, all of this city.

After receiving his elementary education in the country schools, Capt. Hitt spent two years as a student at Illinois college, two years at McKendree college at Lebanon and completed his education at Millersburg, Ky. Following the completion of his education Capt. Hitt returned to Illinois and was in the mercantile business in Exeter and Merritt. At the outbreak of the civil war he raised a company of troops, of which he was elected captain, and it was mustered in the service as Company B, Twenty-seventh Illinois Volunteer Infantry.

Twenty-seven years ago Capt. Hitt moved to Jacksonville and resided on West State street until he built the house on South Church street in which he died. For a number of years he was engaged in the livery business in this city and for eight years served as deputy circuit clerk.

The deceased was a man who always took an active interest in all that was for the best interests of the community and was held in high esteem by a large circle of friends and acquaintances. He was a member of the Methodist Episcopal church and for many years had been prominent in the work of Grace church. In the building of the present church he was quite active and was always on hand to do his part in the work of the church. He was a member of Exeter lodge No. 424, A. F. & A. M., which he joined in 1865 and later he became a member of Jacksonville Chapter, R. A. M., and Hospitalier Commandery, Knight Templars. He was a member of the Consistory, having taken the degrees at Baltimore and for a number of years was an Odd Fellow.

Funeral services will be held Sunday evening at 5 o'clock at the late residence, 329 South Church street, in charge of Rev. J. W. Miller, pastor of Grace M. E. church. Interment will be made in Diamond Grove cemetery.

Great line of negligee shirts at Knolles'.

FAST GROWING CORN.

Ivan Wood of the Pisgah neighborhood was in the city Friday. He stated that last Thursday a week ago he planted some sweet corn and yesterday he measured the corn and it was 4 inches high, with two blades. This certainly showed what a good rain and splendid soil will do.

WILL HAVE OFFICES IN THE AYERS NATIONAL BANK BUILDING

Dr. Norris and Dr. Kingsley Will Have Conveniently Arranged Suite There After July 1.

After July 1 Dr. F. A. Norris and Dr. A. C. Kingsley will have a suite of offices in the Ayers National bank building. They will be on the fourth floor, rooms 407-408-409-410, at the east end of the building overlooking Central park. They will have a delightful view to the south and east and wherever there's a breeze blowing it will surely find its way into these offices.

The reception room will be in the center of the suite with consultation rooms on either side. Dr. Kingsley will use the room in the northeast corner, which is lighted from east and north, offering unsurpassed lighting for dental work. Dr. Norris' consultation room will be in the southeast corner with examining and drug rooms adjacent and to the west.

The arrangement of the rooms is really ideal for the combined tendency of a physician and a dentist and there can be no doubt but that Dr. Norris and Dr. Kingsley will have as convenient and modern office equipment as money can buy. Both are so firmly established in the professional life of Jacksonville, and will find it very advantageous to be located in what is perhaps the finest office building in central Illinois.

The building is in the coolest and most comfortable spot in a wide area. While people outside are worrying about the heat the Ayers building tenants and their patrons are cool and comfortable. This is the result of the plan of ventilation used in the building and from the physical fact that its very relationship with surrounding structures makes it airy. The cool and well ventilated atmosphere is a matter of comfort for both the professional and business men located in the building and for their patients, clients and patrons as well.

Shirts and furnishings especially suited to hot weather at Knolles'.

ESPIONAGE UNAMERICAN.

Sioux City, Ia., June 27.—Concurrence with the declaration of Emory Speer, of Macon, Ga., federal judge of the Southern Georgia district, that the espionage of judges and their courts by the department of justice as un-American and should be abolished, made in his address to the convention yesterday was expressed by resolutions at the meeting of the Iowa state bar association to day. The convention elected officers as follows:

John C. Lacey, Oskaloosa, president; F. F. Dawley, Cedar Rapids, vice-president; H. C. Horack, Iowa City, secretary; Frank Nash, Oskaloosa, treasurer; A. J. Small, Des Moines, librarian.

Burlington, was named as the next convention city.
